## Tuesday Vote Now Possibility In Dodd Case

WASHINGTON (AP) — The Senate is expected to pass judgment this week on Sen. Thomas J. Dodd, accused of financial misconduct. Dodd's chief defender says he is short of the votes needed to block censure.

The vote on the censure resolution proposed by the Senate ethics committee is expected Tuesday or Wednesday.

Sen. Russell B. Long, D-La., said in New Orleans Saturday he was gaining votes but was far short of the majority needed to defeat the resolution.

Long declined to say how many of the potential 100 votes are lined up for Dodd.

Long was to resume today his speech in defense of Dodd, 60, accused of converting \$116,083 in political funds to his own use and knowingly double-billing the Senate and private organizations for travel expenses on seven trips.

The Senate will vote separately on the two counts.

Dodd spent the weekend preparing his final plea. He contends he has never profited from holding public office.

The possibility of a filibuster had loomed as the Senate concluded the first week of debate when Long called for a vote Friday on the double-billing charge. This was blocked by Sen. Wallace F. Bennett, R-Utah, vice chairman of the ethics committee.

Bennett said there was some feeling that if the double-billing count should be voted down, a filibuster might be mounted against bringing the other count to a vote. It is regarded as the more serious.

Republican Leader Everett M. Dirksen said the ethics committee, after spending 14 months investigating Dodd, was entitled to decide which count should be voted on first.

"After all," he said, "it is not just Sen. Dodd who is on trial. The committee is on trial, too." Dirksen said that when the investigation began there was "a lot of cynical comment around the country about a whitewash."

Under Senate rules the charge involving political funds would be voted on first unless unanimous consent were obtained to reverse the voting order.

"Since the parliamentary advantage is with us, why should we throw it away?" Bennett asked. But he added the committee might go along with voting first on the double-billing count if agreement could be reached fixing a time for voting on the other charge.

Regardless of the outcome, Senate Democratic Leader Mike Mansfield believes the Senate must enact a code of ethics this year.

Mansfield said that after the Dodd case is over, he will seek establishment of clear rules of conduct. He added in an interview that this should be the next order of business for the ethics committee.

## Girls State Delegates Set For Elections

COLUMBUS, Ohio (AP)—Candidates were circulating petitions and giving speeches at Capital University today as 1241 delegates attending Buckeye Girls State prepared for Tuesday's general elections.

The girls will go to the polls Tuesday to elect a governor and other state officers for the 21st annual Girls State session, sponsored by the American Legion Auxiliary.

Delegates Sunday elected mayors of the 24 cities at the encampment and were assigned to one of two political parties—Federalist and Nationalist.

Local government officials will address Girls State delegates tonight. Giving the key address of the evening will be Mayor Olive N. Huston of Xenia.

## Police Battle With Cyclists; 44 Arrested

AKRON, Ohio (AP) — Two Twinsburg policemen ducked rocks and bottles before reinforcements arrived and broke up a gathering of more than 200 members of motorcycle clubs in an abandoned picnic grove Sunday.

Police arrested 44 persons, including five juveniles. A pistol was found in an automobile at the grove about 10 miles north of Akron in Summit County. No one was injured.

Most of those arrested had posted bond at the county jail by Sunday night, pending a hearing June 27 in Cuyahoga Falls Municipal Court session at Twinsburg. The juveniles were sent to the county detention home.

Police are holding as evidence a collection of knives, chains, black leather jackets, a Nazi flag, road signs and the 22-caliber pistol.

More than 50 policemen from 10 surrounding communities responded to a call for help from Twinsburg police Sgt. Donald W. Prange and patrolman Walter Orcutt. The two officers got to the scene first after persons in the area complained of noise.

"We were pelted with rocks and bottles from the woods and weeds," Prange said. "We made a retreat and called for assistance."

Some of the reinforcements had riot guns and that ended the disturbance.

The clubs included various groups from surrounding cities, police said. Wine, beer and whisky were found at the grove, which hasn't been used for some time.

Charges against the club members included disorderly conduct, carrying concealed weapons and possession of stolen property — street and highway signs officers found at the grove.

Portage County sheriff's deputies reported they arrested 16 motorcycle club members late Sunday night on charges of contributing to the delinquency of minors after some juvenile girls were found with the cyclists.

The arrests took place at the intersection of Ohio 43 and U.S. 224 about 15 miles southwest of Ravenna.

Deputies said they confiscated several chains, daggers and other small weapons from the motorcyclists, but no guns were found.

Officer said they did not know whether those arrested were part of the group involved in the throwing of rocks and bottles at two Twinsburg policemen early Sunday.

## Crime Report Finds Fault With Schools

WASHINGTON (AP) — A presidential crime commission report says public schools contribute to growing juvenile delinquency.

The commission's task force on juvenile delinquency said teachers often fail to concentrate on slow learners, prejudice the learning abilities of slum children and make life so uncomfortable for troublemakers they want to drop out.

The school is a central, strategic place in the lives of children and so has the potential to help offset the pressures toward delinquency "but this potential is not now being realized," the task force said.

The report urged the schools to cut the number of high school dropouts, help more children prepare for college and other training beyond high school and help arm with adequate skills those who go to work right after high school graduation so they can hold white-collar or blue-collar jobs.

The report, released Saturday, also criticized juvenile courts. Nicholas Katzenbach, crime commission chairman and a former attorney general, said they have failed to live up to the hopes of those who established them.

## 6 Are Arrested In Police Fight

YOUNGSTOWN, Ohio (AP)—Six men were arrested following a fight with police who tried to stop them from throwing firecrackers at passing autos Sunday.

Capt. Clayton Geise and special officer Gabriel Bagdassarian were beaten by men in the crowd at Kenmore and Market streets. Geise fired a chemical spray at the men and Bagdassarian pulled his revolver after he was hit on the head with a bottle. He did not fire.

Both officers were treated and released from South Side Hospital. Help arrived after the fight started and police broke up the crowd.

The charges against the six included discharging fireworks, assault and battery, trying to rescue a prisoner by force and disturbing the peace.

## Railmen Strike In California; Others on Job

### IAM Walkout Breaks Pledge To Legislatures

WASHINGTON (AP) — Members of the International Association of Machinists reportedly walked off their jobs in the Southern Pacific Railroad yards at Roseville, Calif., as a no-strike period imposed in six shoperaft unions by Congress came to an end early today.

The unions had pledged to continue working pending further congressional legislative action.

A spokesman for the Association of American Railroads said the workers quit at 12:01 a.m. and members of other unions were refusing to cross the picket lines.

A spokesman for IAM headquarters here said the union leadership had no report of a walkout in California and added, "If such a walkout has occurred, it is unauthorized."

The no-strike pledge was intended to prevent a threatened nationwide work stoppage of the six shoperaft unions against the nation's railroads, while Congress works out a compromise on proposed antistrike legislation.

There were no reports of walkouts elsewhere.

The unions, after winning a victory on antistrike legislation in the House Thursday, announced they would forego any strike until Congress had a chance to work out a compromise on the bill.

Congressional leaders, rather than trying to hold colleagues in session over the weekend to seek a compromise, relied on the union's pledge that a strike would not take place.

The Senate position is complicated by continuing debate on the censure case against Sen. Thomas J. Dodd, D-Conn., which is expected to run until midweek.

Senate Democratic Leader Mike Mansfield said in an interview he would confer today with Sens. Wayne Morse, D-Ore., Ralph Yarborough, D-Tex., and Lister Hill, D-Ala., to chart a schedule of action.

Mansfield said the Senate "feels very strongly" about its version of the bill, which would extend the no-strike ban for 90 days and provide for a five-man federal board's determination of wage scales and other issues to take effect if there was no agreement between the disputants during that period. This was the proposal President Johnson submitted.

## On Father's Day Pat Nugent Was Still No Father

AUSTIN, Tex. (AP) — Father's Day came and went and Luci Johnson Nugent said she saw no signs her baby's birth was imminent.

Counting on having the baby by Sunday, though, Luci had provided an oval picture frame as a Father's Day gift for President Johnson.

His grandchild's photo was supposed to go in it. Instead, Luci said she provided a poem, explaining about the empty frame. The felt lining of the picture frame was half in pink, half in blue, with question marks in pink on the blue and in blue on the pink.

Luci provided this information for reporters after she and her husband, Patrick J. Nugent, attended 11:15 a.m. Mass Sunday at their Roman Catholic parish church, St. Mary's Cathedral.

Nearby, at St. David's Episcopal church, Luci's mother, Mrs. Lyndon B. Johnson, was attending services. The First Lady has been staying overnight with the Nugents at their fashionable Austin home to be with them when the baby comes.

## Steelworkers Strike in Akron

AKRON, Ohio (AP)—A strike affecting 481 hourly workers began with the first shift today at the Akron Standard Mold Co. after Steelworkers rejected a new two-year contract Sunday by five votes.

A spokesman for Local 1761, United Steelworkers of America, said the company offer included a wage increase of 32 cents an hour over the contract period. The old contract expired Friday.

# Kosygin Warns Of Nuclear War

BIG FOUR TO MEET? — With the arrival of Soviet Premier Alexei Kosygin at the United Nations, diplomatic rumors have it that a possible Big Four Conference is in the works. The Big Four leaders are: Kosygin (top left); U. S. President Lyndon Johnson (top right); British Prime Minister Harold Wilson (bottom left); and French President Charles de Gaulle.

## Johnson Backs Israeli Cause

WASHINGTON (AP) — President Johnson declared today that "certainly troops must be withdrawn" from conquered territory in the war-torn Middle East but firmly linked the pull-back to negotiations of a general Arab-Israeli peace settlement.

In a major statement of U.S. policy, the President dealt with the withdrawal of Israeli forces from captured Arab territory as a matter for negotiation along with the problem of Arab refugees, freedom of passage through international waterways, Arab recognition of Israel's right to exist and a limitation on the Middle East arms race.

"Certainly troops must be withdrawn, but there must also be recognized rights of national life—progress in solving the refugee problem—freedom of innocent maritime passage—limitation of the arms race—and respect for political independence and territorial integrity," Johnson said.

The President added that a simple withdrawal of Israeli forces would "not be a prescription for peace but for renewed hostilities," unless accompanied by negotiations for a general peace settlement in the area.

Johnson spoke to a foreign policy conference of educators at the State Department. But his policy statement was set in the context of global debate with Soviet Premier Alexei N. Kosygin, scheduled to give his own Middle East policy views at a special U.N. General Assembly session in New York an hour or so later.

Johnson, laying down "five great principles of peace" for the Middle East, appealed to the nations there to shun another arms race, abandon "a diet of hate" and strive for a settlement.

"The world is watching," he said.

## Hurricane Hunter Looks for Storm

MIAMI, Fla. (AP)—A hurricane hunter from Puerto Rico—the fifth "suspicious area" to develop in the 19-day-old season. An aerial examination Sunday revealed a large area of clouds and a weak wind circulation. But there were a few signs of intensification.

Since the Atlantic and Gulf storm season opened June 1, three tropical depressions and two other areas of suspicion have been reported.

One of the disturbances moved inland over North Carolina Sunday and weakened after bringing heavy rains and rough tides to the beaches.

## Threatens To Act Alone If UN Fails

UNITED NATIONS, N.Y. (AP) — Soviet Premier Alexei N. Kosygin accused the United States Monday of inciting and encouraging Israel to war on the Arabs. The U.S. delegation quickly called the charge "entirely false."

The clash came in a special U.N. emergency session at which the Soviet premier demanded that Israel be condemned and forced immediately out of Arab territory conquered early this month in her swift war.

Kosygin was not present to hear the reply from U.S. Ambassador Arthur J. Goldberg. The Soviet leader left the hall while Israeli Foreign Minister Eban was speaking in reply.

Asked if the departure was a walkout, Soviet Foreign Minister Andrei A. Gromyko said only "busy, busy," but in any case, Kosygin did not hear the U.S. answer to his extensive attack on virtually all aspects of U.S. foreign policy.

Kosygin spoke only an hour after President Johnson in Washington delivered a major policy statement urging international cooperation in the search for Middle East peace. The day thus brought indirect confrontation of the leaders of the world's two most powerful nations.

The Soviet leader warned that the conflict in the Middle East could lead to nuclear war. He presented a resolution seeking condemnation of Israel, its withdrawal from Arab territories, and restitution by Israel to the Arabs "in the shortest possible period of time all the damage inflicted by its aggression upon the U.A.R. (Egypt, Syria and Jordan) and their nationals."

Kosygin's resolution appealed to the assembly "to undertake on its part immediate effective measures in order to eliminate all the consequences of the aggression committed by Israel."

Israel retorted promptly and directly after a minute of applause for Kosygin died away. Taking the rostrum, Israel Foreign Minister Abba Eban said all Israel's troubles were aggravated "by the unbalanced policy of the Soviet Union."

"The Soviet Union has for 15 years been unfaithful" to the responsibilities it has as a great power, he said. He added, "The burden lies heavily upon her. It has contributed much to the tension of Middle East life."

Eban defended Israel's rights to peace, security and access to vital waterways. He spoke of the "torrent of hatred" which had been pouring in on Israel from the Arabs and of a constant threat to Israel's existence directed against her from the neighboring states.

Defending Israel's lightning 130-hour war and victory over the Arabs in the first week of June, Eban said it was beyond (Continued on Page 2)

Jaycees Challenge Commissioners To Build Airstrip

The Circleville Junior Chamber of Commerce today presented Pickaway County Commissioners with a letter challenging them to proceed with construction of an airport at the proposed Washington Twp. site.

The letter is a part of the week-long intensive fund raising campaign being conducted by the Jaycees to raise \$50,000 for airport construction. Commissioners answered the challenge with a question — "Why did the Jaycees wait until it was too late to begin their campaign?"

The commissioners were referring to the deadline of June 30, to apply for state grant in the amount of \$100,000.

The contract for construction must be awarded before the funds can be released by the state. Last Thursday was the last possible day that commissioners could have advertised for bids in order to award the contract before the deadline.

IN THE letter, which was left with Geneva Brink, commission clerk, while the solons were holding a meeting with child welfare authorities, Jaycees claim that the state government and Pickaway County businesses and residents have met the challenge by providing more than 75 per cent of the estimated cost on constructing the airport.

It was presented by Asa Elsea, who is chairman of the

Jaycees airport fund drive committee.

The letter stated that the commissioners "can and should use their initiative and energies to provide the remaining percentage of monies needed to help Pickaway County build an airport." The letter noted that the general fund balance of the county stands at \$79,342.81.

Johnson spoke to a foreign policy conference of educators at the State Department. But his policy statement was set in the context of global debate with Soviet Premier Alexei N. Kosygin, scheduled to give his own Middle East policy views at a special U.N. General Assembly session in New York on June 20.

Johnson, laying down "five great principles of peace" for the Middle East, appealed to the nations there to shun another arms race, abandon "a diet of hate" and strive for a settlement.

"The world is watching," he said.

Hurricane Hunter Looks for Storm

MIAMI, Fla. (AP)—A hurricane hunter from Puerto Rico—the fifth "suspicious area" to develop in the 19-day-old season. An aerial examination Sunday revealed a large area of clouds and a weak wind circulation. But there were a few signs of intensification.

Since the Atlantic and Gulf storm season opened June 1, three tropical depressions and two other areas of suspicion have been reported.

One of the disturbances moved inland over North Carolina Sunday and weakened after bringing heavy rains and rough tides to the beaches.

Threatens To Act Alone If UN Fails

UNITED NATIONS, N.Y. (AP) — Soviet Premier Alexei N. Kosygin accused the United States Monday of inciting and encouraging Israel to war on the Arabs. The U.S. delegation quickly called the charge "entirely false."

The clash came in a special U.N. emergency session at which the Soviet premier demanded that Israel be condemned and forced immediately out of Arab territory conquered early this month in her swift war.

Kosygin was not present to hear the reply from U.S. Ambassador Arthur J. Goldberg. The Soviet leader left the hall while Israeli Foreign Minister Eban was speaking in reply.

Asked if the departure was a walkout, Soviet Foreign Minister Andrei A. Gromyko said only "busy, busy," but in any case, Kosygin did not hear the U.S. answer to his extensive attack on virtually all aspects of U.S. foreign policy.

Kosygin spoke only an hour after President Johnson in Washington delivered a major policy statement urging international cooperation in the search for Middle East peace. The day thus brought indirect confrontation of the leaders of the world's two most powerful nations.

The Soviet leader warned that the conflict in the Middle East could lead to nuclear war. He presented a resolution seeking condemnation of Israel, its withdrawal from Arab territories, and restitution by Israel to the Arabs "in the shortest possible period of time all the damage inflicted by its aggression upon the U.A.R. (Egypt, Syria and Jordan) and their nationals."

Kosygin's resolution appealed to the assembly "to undertake on its part immediate effective measures in order to eliminate all the consequences of the aggression committed by Israel."

Israel retorted promptly and directly after a minute of applause for Kosygin died away. Taking the rostrum, Israel Foreign Minister Abba Eban said all Israel's troubles were aggravated "by the unbalanced policy of the Soviet Union."

"The Soviet Union has for 15 years been unfaithful" to the responsibilities it has as a great power, he said. He added, "The burden lies heavily upon her. It has contributed much to the tension of Middle East life."

Eban defended Israel's rights to peace, security and access to vital waterways. He spoke of the "torrent of hatred" which had been pouring in on Israel from the Arabs and of a constant threat to Israel's existence directed against her from the neighboring states.

Defending Israel's lightning 130-hour war and victory over the Arabs in the first week of June, Eban said it was beyond (Continued on Page 2)

Liberalized Laws Of Abortion Urged

ATLANTIC CITY, N.J. (AP) — The trustees of the American Medical Association have urged, for the first time, that the AMA adopt an official policy in support of liberalizing the nation's abortion laws.

The trustees made the recommendations at the opening session of the annual AMA convention Sunday on the basis of a report by the Organization's Committee on Human Reproduction.

ment of the United States will do its part for peace, in every form, and at every level and at every hour.

Evidently with a view to the Soviet-American confrontation—dramatized by Johnson's and Kosygin's personal declarations—the President referred to his efforts to improve relations with Moscow.

He spoke of cultural exchanges and similar agreements such as space treaty, and urged agreements to block the spread of nuclear weapons and prevent an antiballistic missile arms race.

"We have tried to enlarge, and have made great progress in enlarging the arena of common action with the Soviet Union," Johnson said.

His personal appeal for "common action" with Moscow tackling the Middle East problems led into his statement on that crisis area.

It was in this statement that he outlined a set of five principles for a "durable peace" and then dealt specifically with the hottest current issue posed by the Arab states and the Soviets—withdrawal of Israeli troops from conquered territory.

Johnson and Kosygin each will be on national television and radio.

Only two weeks ago they used for the first time the four-year-old hot line between Washington and Moscow to reduce the danger of great-power war in the Middle East.

Advance signs were that now, since fighting is over, their diplomatic conflict may be less inhibited.

Johnson's policy, officials said, is to press for direct Arab-Israeli peace negotiations designed to produce a permanent Middle East settlement. The President is known to feel the recent week-long war could be converted into constructive results if the Arab and Israeli governments could be persuaded finally to meet.

In advance of today's speech Johnson avoided taking any specific position on Israel's territorial gains in the fighting. Privately, administration officials said they were confident Israel recognized some newly acquired territory eventually would have to be given up. But these officials also indicated their view that Israeli withdrawals should be linked to larger considerations of a broad peace settlement.

Kosygin's strategy at the United Nations, according to all advance indications, was to concentrate on charges of Israeli aggression and Arab demands for Israel's withdrawal to positions Israel held before the fighting started.

out, however, that all monies in the general fund have already been budgeted and they are not free to allocate any for airport construction, unless there should be a surplus. The county's fiscal year coincides with the calendar year and no surplus would be apparent until December.

The letter further states that: "It is a known fact that airports in small communities help attract industry and business. A new industry that employs 100 new people will provide the following increases in annual retail sales: grocery stores, \$72,000; automobile dealers, \$47,000; eating and drinking places, \$25,000; gasoline service stations, \$24,000; department stores, \$22,000; clothing and shoe stores, \$21,000; lumber, building material and hardware dealers, \$18,000; furniture, home furnishings and household stores, \$13,000; others, \$88,000. Total, \$341,000."

"Many other counties have met the challenge and have had the foresight to begin procedures in obtaining an airport. The people of Pickaway County have indicated a tremendous interest in an airport by pledging money and signing petitions.

"There is still enough time left to provide Pickaway County with an airport and a chance for future growth. Can a growing community afford to turn down such an opportunity? If the job is to be done the intent must be filed immediately. If the intent is not filed immediately, the citizens of this county must ask themselves why Pickaway County is not meeting the challenge."

Commissioner Wayne Hines, after seeing the letter, today said, "How can they (the Jaycees) say there is support for an airport when they cannot raise the money they have set as a goal?" (The Jaycees established a goal of \$50,000 in their fund-raising drive and to date report pledges of \$10,500.)

Commission Chairman Melvin said, "We have done more than we originally promised. We have provided the land and have had specifications drawn by the engineer which have been approved.

"I have never gone back on my word. We said we would build an airport if the funds could be raised.

"all honest doubt" that between May 14 and June 5. Arab governments "methodically prepared and mounted an aggressive assault designed to bring about Israel's immediate and complete destruction."

Kosygin attacked U.S. foreign policy in virtually all areas of tension in the world, from Vietnam to Cuba but reserved his fiercest blasts for U.S. and British roles in the drama of Israel's swift victory over the Arabs early this month.

"The aggressor (Israel) is in a state of military intoxication," Kosygin insisted.

Kosygin issued a 'categorical demand' that all Israel forces be withdrawn from the Suez Canal zone and all other occupied territories, so that a climate might be created for establishing peace in the Middle East.

"Only the withdrawal of Israeli forces from the seized territories may change the situation in favor of detente and the creation of conditions for peace in the Middle East," Kosygin said.

He said the Soviet Union "will undertake all measures within its power both in the United Nations and outside this organization in order to achieve the elimination of the consequences of aggression and promote the establishment of a lasting peace in the region."

He said the world was watching to see whether the United Nations "would be able to give a due rebuff to the aggressor."

The session brought an indirect confrontation of the Soviet leader and President Johnson. Shortly before Kosygin spoke, Johnson appealed to all nations to shun rigid stands in the search for Middle East stability.

Looking solemn, Kosygin walked slowly to the rostrum of the assembly to start a critical phase of this special emergency session. He began by excoriating American policy with regard to Vietnam, Cuba, the Congo and other areas. He said the situation in the Middle East could lead to thermonuclear war.

"No nation wants war," Kosygin said. "Nobody doubts that if a new world war started, it would inevitably be a nuclear one."

The Soviet leader said, "It should be taken into account that the continuing war in this area (Vietnam) is fraught with the terrible danger of escalating into a major military clash between the powers. This is precisely what the present foreign policy of the United States of America is fraught with."

Kosygin praised the U.N. Security Council for achieving a cease-fire in the Middle East, but added it did not discharge its whole responsibility, since Israeli troops still occupy Arab territory.

"As long as Israeli troops continue to occupy territories seized by them and urgent measures are not taken to eliminate the consequences of aggression, a military conflict can flare up at any moment," Kosygin said.

"That is why the Soviet Union took the initiative to convene an urgent meeting of the members of the United Nations General Assembly."

## John Bush Graduated At OSU

John Steven Bush, son of Mr. and Mrs. Robert Bush of New Holland was among the graduates receiving degrees at the June 13 Commencement ceremonies at Ohio State University.

Bush majored in agricultural marketing and was awarded the bachelor of science degree from the college of agriculture.

He has accepted a position with the Texaco Oil Corporation as a dealer representative.

Mr. and Mrs. Robert Bush and Mrs. Errol Black of New Holland attended the commencement exercises. Following the graduation ceremonies all were dinner guests.

raises the money we will build the airport," Melvin proclaimed.

Mrs. Luey says. "But it did get me out of the dorm."

Beth, 21, and a native of Pittsburgh, Pa., married Michael Luey, 23, of Syosset, N.Y., last January. She was graduated from Radcliffe a few days ago and will do graduate work in Russian studies next semester while her husband finishes his last year at Harvard Law School.

Beth says she and Michael knew each other before she ran the ad, which drew responses from as far as Vietnam and from a person who described himself as "a red-blooded Alaskan bartender."

At the time of the ad, Beth declined public use of her name to avoid calls from "kooks," but agreed to be identified now when interviewed. She declined to give her full maiden name.

"It all died down slowly," Beth says. "But I still have some of the answers. I'm saving them for my grandchildren."

From Kirkland House at Harvard came this response: "A marriage seems a much better solution than a mere roommate. I will be busy with papers until May 3, but I hope you will let me take you to dinner" after that. "P.S. I have furniture."

Three soldiers in Vietnam wrote: "We have decided that as upstanding all-American men first, and soldiers second, it is our honorable duty to all womankind to help alleviate the problem which you are facing."

"We realize that to offer you shelter in our humble abode would present a small transportation problem, so if you are not adverse to the suggestion, we will have to temporarily maintain separate households until the small matter of a war is straightened out."

Beth's ad was a protest against Radcliffe rules prohibiting students from living off-campus.

## China H-Bomb Is Exploded As Mao 'Gift'

TOKYO (AP) — Red China's armed forces newspaper says China's first hydrogen bomb was exploded one month early as a gift to Chairman Mao Tse-tung's cultural revolution.

"Some of the officials concerned were gripped by anxiety and unable to tackle difficulties involved in the test" and warned against "undue haste," the Liberation Army Daily said.

But "the revolutionaries, re-reading quotations of Communist Chinese party Chairman Mao Tse-tung decided to test the bomb early and make it a gift to the cultural revolution," it said.

"Thus they worked day and night and finally succeeded in drawing up the blueprint a month earlier than scheduled. They put the blueprint into shape fragmentarily without waiting for the completion of the whole parts."

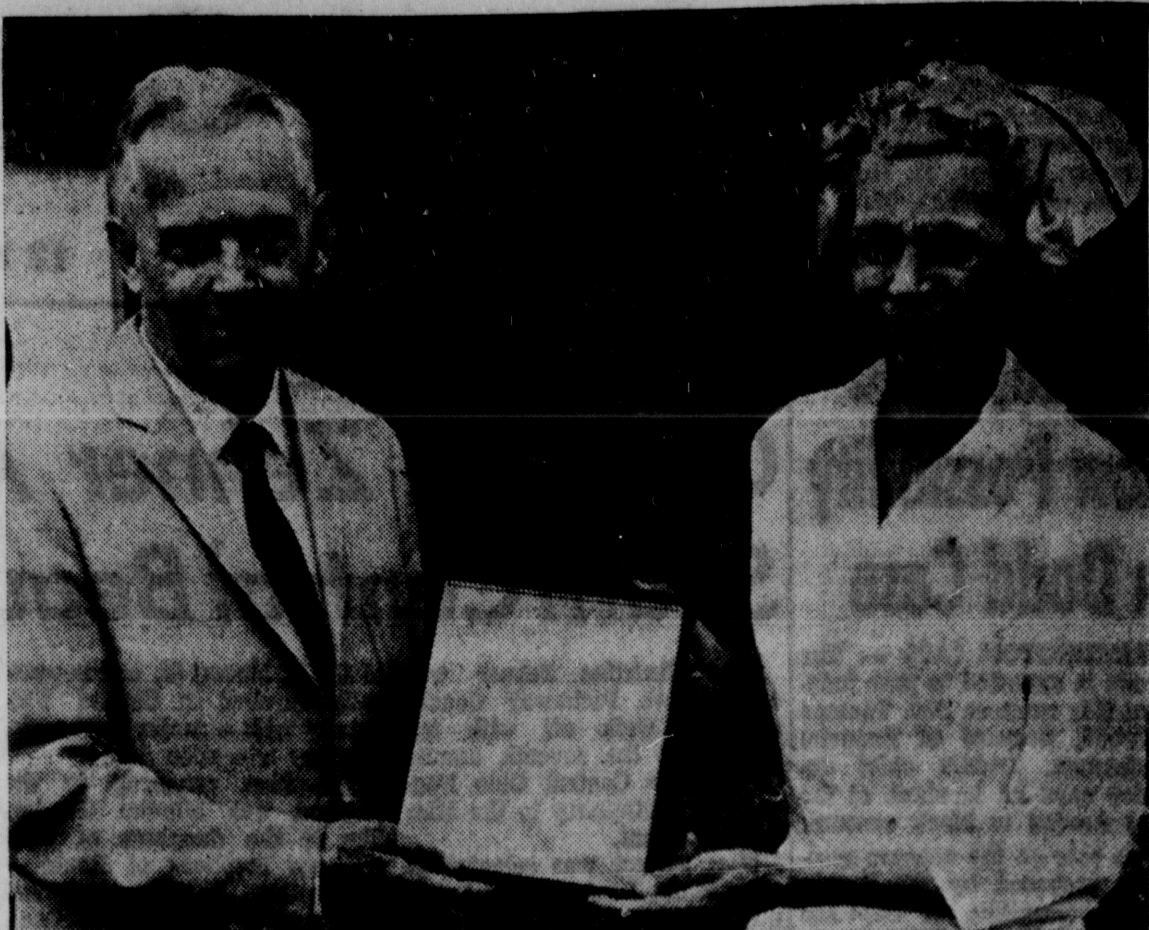

The announcement of the Chinese blast Saturday drew no comment from the Soviet Union and was given only one paragraph in Moscow Sunday papers.

Defense Department officials in Washington said the test has not changed the Pentagon's belief that China will not be able to launch a nuclear attack on the United States for about eight years.

Japanese military experts, however, say the Chinese appear to have a number of bombs ready for testing and in transportable form. The blast was interpreted by some Japanese commentators as an implied threat to Japan, which has no diplomatic relations with Red China.

Nuclear debris from the Chinese test was expected to begin falling on Japan today. Two daily flights of planes are to collect fallout dust in western Japan.

The blast was expected to strengthen Mao's hand in his campaign to oust President Liu Shao-chi and his supporters. The Peking communique announcing the explosion said it "greatly heightens the morale of the revolutionary people, and greatly deflates the arrogance of imperialism, modern revisionism and all reactionaries."

IN APPRECIATION — Miss Ellen Leist, Director of Nursing at Berger Hospital, presents a plaque from all the employees of the hospital to Mr. Charles Beard, retiring administrator, for the outstanding work he has done. The plaque read in part: "Be it further resolved that we consider him an Administrator Extraordinary, a title we reserve and hold in highest respect, for those who perform outstanding services to Berger Hospital and our community."

Mansfield said he will await conclusion of the Dodd censure matter before appointing Senate conferees to meet with a similar House group.

Under the Senate version, if no settlement were reached during the 90-day mediation period, the board's determination of the wage scales and other issues would take effect for a period extending not longer than Jan. 1, 1969.

The shopcraft unions oppose this as amounting to compulsory arbitration with a government-imposed settlement.

The House voted to keep the 90-day extension period and the mediation procedures but to eliminate the compulsory settlement.

Morse, Senate sponsor of the President's bill, conferred with Johnson at the White House Friday after the surprise House action. Later, he said the administration remained firmly committed to the Senate version of the legislation.

## Reading, Study Skills Offered By New O.U. Plan

A program in reading and study skills for prospective college students will be offered this summer by the Lancaster Campus of Ohio University.

The announcement was made today by Paul P. Mechling, Adult and Continuing Education Specialist.

The class sessions will start on Tuesday, July 25 at 7:30 p.m. and will continue on Tuesday and Thursday evenings for a total of ten sessions of two hours each.

The course will consist of discussions and practice in techniques in reading textbooks, increasing rate of reading, vocabulary development, recreational reading, note-taking, scheduling time, preparing for and taking tests, attitudes for study, and preparation of themes and course papers.

Instructors for the program will be Dr. Kenneth H. Blanchard and Mr. David J. Yarrington, both members of the faculty at The Ohio University, Athens, Ohio. Dr. Blanchard has had experience in teaching reading-study skills to college freshmen at Colgate and Cornell Universities. He is presently Assistant Professor of Management. Mr. Yarrington is a former instructor of Reading-Study Skills at the University of Pennsylvania. He is currently an instructor in the College of Education at Ohio University.

Tuition for the non-credit course will be \$40. Mechling stated that registration in the course can be completed at the Ohio University Faculty Center, 436 N. Maple St. in Lancaster. It is suggested that enrollment be completed on or before July 20.

The class sessions will be held in an air-conditioned room at Shaw's Restaurant and Steak House, 201 South Broad Street, Lancaster.

The second runnerup, Miss Donna Edwards of Jackson will receive a \$50 scholarship.

Miss Zehner was born in Greenville and later moved with her parents to Circleville. She attended school in all grades in the Circleville School System and was a graduate of Circleville High School in 1965. While in high school she was active in drama, music and was a varsity cheerleader. She also took a classical course of study with plans to enter the elementary education field.

After graduating from high school she entered Capital University and is presently working during the summer at the Columbus State Hospital. Her job there is relative to her desires in elementary education. She works with retarded children in the recreation department.

BESIDES her many educational and recreational activities she attends the Trinity Lutheran Church, of which her father, Rev. Carl G. Zehner, is pastor. Her vocal interests are further brought out by singing in the Chapel Choir at Capital. During her few "off hours" with her family she enjoys boating, music and camping.

Miss Zehner succeeds last year's title holder, Miss Linda Trimmer. She will later compete with other contestants in the Miss Ohio Pageant at Cedar Point in Sandusky July 13, 14 and 15, with the selection of Miss Ohio to be announced on July 16.

The winner of the Miss Ohio Pageant will then compete for one of the most highly coveted awards in the world, Miss America. The Miss America competition will be held this fall in Atlantic City, N. J.

out, however, that all monies in the general fund have already been budgeted and they are not free to allocate any for airport construction, unless there should be a surplus. The county's fiscal year coincides with the calendar year and no surplus would be apparent until December.

The letter further states that: "It is a known fact that airports in small communities help attract industry and business. A new industry that employs 100 new people will provide the following increases in annual retail sales: grocery stores, \$72,000; automobile dealers, \$47,000; eating and drinking places, \$25,000; gasoline service stations, \$24,000; department stores, \$22,000; clothing and shoe stores, \$21,000; lumber, building material and hardware dealers, \$18,000; furniture, home furnishings and household stores, \$14,000; others, \$88,000. Total, \$331,000."

"MANY other counties have met the challenge and have had the foresight to begin procedures in obtaining an airport. The people of Pickaway County have indicated a tremendous interest in an airport by pledging money and signing petitions.

"There is still enough time left to provide Pickaway County with an airport and a chance for future growth. Can a growing community afford to turn down such an opportunity? If the job is to be done the intent must be filed immediately. If the intent is not filed immediately, the citizens of this county must ask themselves why Pickaway County is not meeting the challenge."

Commissioner Wayne Hines, after seeing the letter, today said, "How can they (the Jaycees) say there is support for an airport when they cannot raise the money they have set as a goal?" (The Jaycees established a goal of \$50,000 in their fund-raising drive and to date report pledges of \$10,500.)

Commission Chairman Melvin said, "We have done more than we originally promised. We have provided the land and have had specifications drawn by the engineer which have been approved.

"I have never gone back on my word. We said we would build an airport if the funds could be raised.

## Radcliffe Girl Finds It Pays To Advertise

CAMBRIDGE, Mass. (AP)—Last year a Radcliffe girl got 250 replies to her advertisement in the Harvard Crimson saying she wanted to get married for one year to escape dormitory life.

What happened?  
"I got married," says Beth Luey.

As a result of the ad?  
"Not really, not directly."

"all honest doubt" that between May 14 and June 5, Arab governments "methodically prepared and mounted an aggressive assault designed to bring about Israel's immediate and complete destruction."

Kosygin attacked U.S. foreign policy in virtually all areas of tension in the world, from Vietnam to Cuba but reserved his fiercest blasts for U.S. and British roles in the drama of Israel's swift victory over the Arabs early this month.

"The aggressor (Israel) is in a state of military intoxication," Kosygin insisted.

Kosygin issued a 'categorical demand' that all Israel forces be withdrawn from the Suez Canal zone and all other occupied territories, so that a climate might be created for establishing peace in the Middle East.

"Only the withdrawal of Israeli forces from the seized territories may change the situation in favor of detente and the creation of conditions for peace in the Middle East," Kosygin said.

He said the Soviet Union "will undertake all measures within its power both in the United Nations and outside the organization in order to achieve the elimination of the consequences of aggression and promote the establishment of a lasting peace in the region."

He said the world was watching to see whether the United Nations "would be able to give a due rebuff to the aggressor."

The session brought an indirect confrontation of the Soviet leader and President Johnson. Shortly before Kosygin spoke, Johnson appealed to all nations to shun rigid stands in the search for Middle East stability.

Looking solemn, Kosygin walked slowly to the rostrum of the assembly to start a critical phase of this special emergency session. He began by excoriating American policy with regard to Vietnam, Cuba, the Congo and other areas. He said the situation in the Middle East could lead to thermonuclear war.

"No nation wants war," Kosygin said. "Nobody doubts that if a new world war started, it would inevitably be a nuclear one."

The Soviet leader said, "It should be taken into account that the continuing war in this area (Vietnam) is fraught with the terrible danger of escalation into a major military clash between the powers. This is precisely what the present foreign policy of the United States of America is fraught with."

Kosygin praised the U.N. Security Council for achieving a cease-fire in the Middle East, but added it did not discharge its whole responsibility, since Israeli troops still occupy Arab territory.

"As long as Israeli troops continue to occupy territories seized by them and urgent measures are not taken to eliminate the consequences of aggression, a military conflict can flare up at any moment," Kosygin said. "That is why the Soviet Union took the initiative to convene an urgent meeting of the members of the United Nations General Assembly."

## John Bush Graduated At OSU

John Steven Bush, son of Mr. and Mrs. Robert Bush of New Holland was among the graduates receiving degrees at the June 13 Commencement ceremonies at Ohio State University.

Bush majored in agricultural marketing and was awarded the bachelor of science degree from the college of agriculture.

He has accepted a position with the Texaco Oil Corporation as a dealer representative.

Mr. and Mrs. Robert Bush and Mrs. Errol Black of New Holland attended the commencement exercises. Following the graduation ceremonies all were dinner guests.

Mrs. Luey says, "But it did get me out of the dorm."

Beth, 21, and a native of Pittsburgh, Pa., married Michael Luey, 23, of Syosset, N.Y., last January. She was graduated from Radcliffe a few days ago and will do graduate work in Russian studies next semester while her husband finishes his last year at Harvard Law School.

Beth says she and Michael knew each other before she ran the ad, which drew responses from as far as Vietnam and from a person who described himself as "a red-blooded Alaskan bartender."

At the time of the ad, Beth declined public use of her name to avoid calls from "kooks," but agreed to be identified now when interviewed. She declined to give her full maiden name.

"It all died down slowly," Beth says. "But I still have some of the answers. I'm saving them for my grandchildren."

From Kirkland House at Harvard came this response: "A marriage seems a much better solution than a mere roommate. I will be busy with papers until May 3, but I hope you will let me take you to dinner" after that. "P.S. I have furniture."

Three soldiers in Vietnam wrote: "We have decided that as upstanding all-American men first, and soldiers second, it is our honorable duty to all womankind to help alleviate the problem which you are facing.

"We realize that to offer you shelter in our humble abode would present a small transportation problem, so if you are not adverse to the suggestion, we will have to temporarily maintain separate households until the small matter of a war is straightened out."

Beth's ad was a protest against Radcliffe rules prohibiting students from living off-campus.

## China H-Bomb Is Exploded As Mao 'Gift'

TOKYO (AP)—Red China's armed forces newspaper says China's first hydrogen bomb was exploded one month early as a gift to Chairman Mao Tse-tung's cultural revolution.

"Some of the officials concerned were gripped by anxiety and unable to tackle difficulties involved in the test" and warned against "undue haste," the Liberation Army Daily said.

But "the revolutionaries, re-reading quotations of Communist Chinese party Chairman Mao Tse-tung decided to test the bomb early and make it a gift to the cultural revolution," it said.

"Thus they worked day and night and finally succeeded in drawing up the blueprint a month earlier than scheduled. They put the blueprint into shape fragmentarily without waiting for the completion of the whole parts."

The announcement of the Chinese blast Saturday drew no comment from the Soviet Union and was given only one paragraph in Moscow Sunday papers.

Defense Department officials in Washington said the test has not changed the Pentagon's belief that China will not be able to launch a nuclear attack on the United States for about eight years.

Japanese military experts, however, say the Chinese appear to have a number of bombs ready for testing and in transportable form. The blast was interpreted by some Japanese commentators as an implied threat to Japan, which has no diplomatic relations with Red China.

Nuclear debris from the Chinese test was expected to begin falling on Japan today. Two daily flights of planes are to collect fallout dust in western Japan.

The blast was expected to strengthen Mao's hand in his campaign to oust President Liu Shao-chi and his supporters. The Peking communique announcing the explosion said it "greatly heightens the morale of the revolutionary people, and greatly deflates the arrogance of imperialism, modern revisionism and all reactionaries."

Mansfield said he will await conclusion of the Dodd censure matter before appointing Senate conferees to meet with a similar House group.

Under the Senate version, if no settlement were reached during the 90-day mediation period, the board's determination of the wage scales and other issues would take effect for a period extending not longer than Jan. 1, 1969.

The shopcraft unions oppose this as amounting to compulsory arbitration with a government-imposed settlement.

The House voted to keep the 90-day extension period and the mediation procedures but to eliminate the compulsory settlement.

Morse, Senate sponsor of the President's bill, conferred with Johnson at the White House Friday after the surprise House action. Later, he said the administration remained firmly committed to the Senate version of the legislation.

## Reading, Study Skills Offered By New O.U. Plan

A program in reading and study skills for prospective college students will be offered this summer by the Lancaster Campus of Ohio University.

The announcement was made today by Paul P. Meehling, Adult and Continuing Education Specialist.

The class sessions will start on Tuesday, July 25 at 7:30 p. m. and will continue on Tuesday and Thursday evenings for a total of ten sessions of two hours each.

The course will consist of discussions and practice in techniques in reading textbooks, increasing rate of reading, vocabulary development, recreational reading, note-taking, scheduling time, preparing for and taking tests, attitudes for study and preparation of themes and course papers.

Instructors for the program will be Dr. Kenneth H. Blanchard and Mr. David J. Yarrington, both members of the faculty at The Ohio University, Athens, Ohio. Dr. Blanchard has had experience in teaching reading-study skills to college freshmen at Colgate and Cornell Universities. He is presently Assistant Professor of Management. Mr. Yarrington is a former instructor of Reading-Study Skills at the University of Pennsylvania. He is currently an instructor in the College of Education at Ohio University.

Tuition for the non-credit course will be \$40. Meehling stated that registration in the course can be completed at the Ohio University Faculty Center, 436 N. Maple St. in Lancaster. It is suggested that enrollment be completed on or before July 20.

The class sessions will be held in an air-conditioned room at Shaw's Restaurant and Steak House, 201 South Broad Street, Lancaster.

## 'Wonderful' Says Kosygin Soviet Premier Takes In Manhattan Tourist Sights

NEW YORK (AP)—Soviet Premier Alexei N. Kosygin took in the typical tourist sights of Manhattan Sunday, but left his limousine only twice to take a walk — along Wall Street and a Fifth Avenue area of expensive shops.

Following his 2½-hour, 38-mile trip, Kosygin summed it up through an interpreter as "wonderful."

Among the sights shown Kosygin were Central Park, Greenwich Village, Chinatown, the Empire State Building, Harlem, the Bowery, the Waldorf-Astoria Hotel, Brooklyn Bridge, Union Square, Trinity Church, Grand Central Terminal, and the East Village, the hippie hangout.

The seven-car motorcade, flanked by motorcycle policemen, began and ended the tour at the Soviet U.N. Mission on East 67th Street. Sunday traffic is usually light in Manhattan, and overcast skies also cut down on the number of strollers and sightseers.

Kosygin became the first Soviet premier to set foot in the all Street financial district. Nikita Khrushchev was driven along the street in 1959, but stayed in his car.

Kosygin's four-block walk took him past the New York Stock Exchange and some major firms representing the upper echelons of American economic power.

On Fifth Avenue the premier walked from 38th Street to 23rd Street.

The few passersby showed only mild curiosity. One woman said of Kosygin, who was wearing a dark gray suit and dark blue and black striped tie: "If he didn't have all those people around him, I'd think he was a businessman."

Kosygin drew his first picket since he arrived Saturday for an emergency session of the U.N. General Assembly.

Around the corner from the Soviet Mission, some 130 Jews protested Soviet support of Arab nations. The group sang, clapped and chanted for several hours before dispersing.

The winner of the Miss Ohio Pageant will then compete for one of the most highly coveted awards in the world, Miss America. The Miss America competition will be held this fall in Atlantic City, N. J.

## Dear Abby: By Abigail Van Buren

### Don't Give In To Unruly Son

DEAR ABBY: Our 16-year-old son got a ticket for speeding (he has no car, it was his father's) so we took his driving privileges away for a month. It has been only five days and this boy is unbearable. He is ugly and hateful. He won't eat and he won't look at us. He answers all our questions with grunts and shrugs, and he says he won't be "nice" until we give him one more chance and restore his driving privileges.

My husband is a physician. He has had one coronary and he was told to keep calm and avoid excitement, and this son of ours is making a wreck of him.

I honestly don't know how to cope with this. We have all the questions, but none of the answers. Should we give in?

UNHAPPY  
DEAR UNHAPPY: If you "give in" now you will give your son the impression that all he has to do in life to get his way is to punish everyone around him with his ugliness. Ignore his act. And if he doesn't eat, it's his hunger. Don't ask him any questions. It will only provide him with an opportunity to exhibit his

surliness. Let him sweat it out. You'll be doing him a favor.

DEAR ABBY: I am the 12-year-old sister of a 14-year-old slob. I have to share a room with her and it is murder. How can I get her to clean up her half of the room? I have told her about this a hundred times, but it doesn't do any good.

NEAT  
DEAR NEAT: You can catch more flies with honey than vinegar. Be sweet. If all you do is net yourself a lot of flies, you can either learn to live with it, or clean up her half, too. I'll admit it's not "fair," but it beats fuming and stewing and fighting.

DEAR ABBY: Before my husband and I met and were married, he went with a woman for about three years. He told me that she traveled around with him for weeks at a time. Here is my grudge: After five years of marriage, my husband still keeps in the closet a large box of pictures and souvenirs of this woman. Many of the pictures are of the two of them together.

Abby, am I square and narrow-minded to feel as I do about this? When I married him, I threw away all pictures and souvenirs of past boy friends. I never mention things I did, or places I went, etc. with any other man. But my husband never misses an opportunity to mention this woman's name. What do you think? TROUBLE

DEAR TROUBLE: I think your husband enjoys tormenting you. But he's your husband now, and if you want it that way, you could possibly minimize your problem by ignoring all references to this woman, AND the box in the closet.

CONFIDENTIAL TO "BORN SWINGER": Altho I am not a doctor, I can recommend one exercise that could cure all your present ills. SKIPPING! Try skipping the drinking, smoking, and swinging.

### Bear Gets Free Ride on Tramway

ALBUQUERQUE, N.M. (AP)—A 200-pound bear that wandered into the Albuquerque South Valley got a tramway ride into the mountains recently after a two-night stayover in the Albuquerque zoo.

The bear was tranquilized and roped when found in a residential area of the valley.

Strapped into a box under the tramway used by tourists for the ride up the west side of the Sandias, the bear was carried to about the 8,500-foot level and released in a canyon.

Forest Service and Game Department employees were in charge of the operation.

### Steelmakers Cut Back Production for Summer

CLEVELAND (AP)—The nation's steelmakers are cutting back on production as summer vacations begin and metalworking shops hold purchases to spot needs, Steel Magazine reported today.

Raw steel production last week was estimated by the metalworking weekly at 2,260,000 tons, the smallest for any week—except holiday periods—since mid-December 1965.

Buying of finished steel in June has been better than some steelmen predicted, but market volume still fell short of hopes.

Steel said this was because "expansion and modernization programs were held back by delay in restoring the 7 per cent investment tax credit and by strikes in the construction industries."

Steelmen generally report that defense requirements and mis-

cellaneous demand are providing strong, steady market support as the first half of the year ends. But Steel said buying forecasts for July range from "fair to dismal."

"Some say that a strong general consumer buying movement is likely this summer—even if the auto industry gets snarled in labor trouble," according to Steel. "It would extend into the fall, as users have cut their inventories to the point where many may find it prudent to start replenishing."

Leading steelmakers say current order volume is about equal to that of a month ago. One steel sales executive described the picture as stabilized.

"We are holding our own, but we're not getting sufficient new business to warrant boosting output," he was quoted by the

DEAR NEAT: You can catch more flies with honey than vinegar. Be sweet. If all you do is net yourself a lot of flies, you can either learn to live with it, or clean up her half, too. I'll admit it's not "fair," but it beats fuming and stewing and fighting.

DEAR ABBY: Before my husband and I met and were married, he went with a woman for about three years. He told me that she traveled around with him for weeks at a time. Here is my grudge: After five years of marriage, my husband still keeps in the closet a large box of pictures and souvenirs of this woman. Many of the pictures are of the two of them together.

Abby, am I square and narrow-minded to feel as I do about this? When I married him, I threw away all pictures and souvenirs of past boy friends. I never mention things I did, or places I went, etc. with any other man. But my husband never misses an opportunity to mention this woman's name. What do you think? TROUBLE

DEAR TROUBLE: I think your husband enjoys tormenting you. But he's your husband now, and if you want it that way, you could possibly minimize your problem by ignoring all references to this woman, AND the box in the closet.

### Bear Gets Free Ride on Tramway

ALBUQUERQUE, N.M. (AP)—A 200-pound bear that wandered into the Albuquerque South Valley got a tramway ride into the mountains recently after a two-night stayover in the Albuquerque zoo.

The bear was tranquilized and roped when found in a residential area of the valley.

Strapped into a box under the tramway used by tourists for the ride up the west side of the Sandias, the bear was carried to about the 8,500-foot level and released in a canyon.

Forest Service and Game Department employees were in charge of the operation.

Age Balance Vital

Much has been said by critics of compulsory retirement, maximum employment ages and other prejudices directed against older people by society about the effects such practices have on their victims. But the elderly are not the only sufferers.

Loss of the temperate hand of mature judgment and experience in areas where the aged are shunned has many adverse effects upon younger generations as well. No one force is responsible for the creation of a high standard of living or a happy community. The concerted effort of all age groups is required to balance the eccentricities of each.

A proper mixture of maturity and youth in a community, each working for instead of against the other, produces the happiest, most progressive environment. Antagonism between age groups obviously creates many problems. Among the most apparent is the loneliness of the aged, but researchers have found a confused state of loneliness apparent in young people as well. They found, for example, many instances of loneliness among suburbanites — that increasingly common breed of human which wants to get away from it all.

Especially in newer suburban communities, inhabited predominantly by young couples, a noticeable lack of community and social life is caused, say the researchers, by lack of ability on the part of inexperienced woud-be socialites.

Perhaps there is too much negative thinking by social observers who insist upon creating some sort of monster out of increasing life expectancies and expanding older populations. Medical and social marvels which have produced longer life have really enriched the human race by providing it with a greater proportion of mature wisdom and experience than it possessed heretofore.

Swimming Dangers

Hot weather invariably brings with it the desire to swim. Whether it is a lake, an ocean, a pool or a tub in the back yard — for the kiddies, of course — there is nothing quite as inviting as cool water in which to dunk oneself when the temperature begins its seasonal climb. No other single attraction beckons to as many persons during the summer months.

Attractions of the water prove particularly fascinating to young people, and the adult generation cannot help but envy the youthful ambition and boundless energy of which the water sprite has an endless supply. Carelessness and a conspicuous lack of training too often turn an enjoyable outing into tragedy, however — a tragedy which is one kind of accident the only reason for which is parental failure.

More than 800 children between the ages of one and five years drown each year in the United States as a result of parental carelessness. Thousands more in older age groups add to the total.

Summer children's camps and other professionally supervised gathering places for young people insist upon swimming and first aid instruction and practical tests before they will permit youngsters to take to the water. People who send their children to these places would be horrified if it were otherwise.

Yet they themselves have neither the patience nor, for the most part, the concern to give instructions on the few simple rules of water safety swimmers of all ages should have.

It is inviting tragedy to dismiss the need for instruction in good water habits because "the water is not deep enough to hurt anyone." The smallest back yard plastic pools, holding but a few inches of water, have claimed victims. To a small child with no instruction to inform him otherwise, it would be as natural to suck in his breath when splashed with water as to spit it out. The result could be a lungful of water.

A parent need not be an expert swimmer to give his youngsters the fundamentals of water safety. All he needs are a few minutes of patience to explain the dangers ever present while in the water. These few minutes will be among the most valuable a parent can give his child in his lifetime.

You can't tell a rattlesnake's age by counting the rattles on its tail. These buttons are often broken off and, in any case, the snake may grow either one or two buttons a year.

Oil and gas cost the average motorist about three cents a mile. Tests show you'll get peak fuel economy by driving at speeds between 40 and 50 miles an hour.

The emperor penguin is one of nature's more responsible fathers. Since there is no material in the antarctic to build nests, he and his mate take turns holding their egg on their feet so it won't freeze on the ice.

Windmills were among man's earliest sources of power. They were used in Persia to grind corn seven centuries before the Christian era.

Does your child suffer already from "the executive syndrome"? A German psychiatrist says that some children just starting school show signs of suffering from the same pressures and tensions that often in later life produce ulcers or nervous breakdown in business executives.

WHO SAYS that the offspring of famous Hollywood stars are the least bit different from kids in, let's say, Sauk Center, Minnesota? A story to prove they're not concerns the big Western idol who told his seven-year-old son apologetically, "Tomorrow morning's going to be rough for you, my boy, but I want you to be brave and take it like a man. The fact is I'm going to have to use our chauffeur and our Rolls-Royce to keep a business date in Santa Barbara."

"But Dad," wailed the boy, "how am I going to get to school?"

Suddenly stern, the father declared, "You'll get to school like the other kids. The butler will take you in the Cadillac."

Joe Levine, movie mogul and promoter in the good old Hollywood tradition, has too many irons in the fire to bother with minor details. When he told one interviewer, for instance, that he numbered among his future projects a super-duper spectacular called "Zulu," and the interviewer had the temerity to ask what it would be about, Levine shrugged him off with "There are these 1,000 Zulus and they get out and throw a lot of spears at each other. What do you need to know the story for?"

Are the Russians more advanced than the United States in medicine and surgery? Can they really sew back arms and legs that are lost in accidents?

B. F., California

Dear Mr. F.: All nations are united in the single objective of bringing better health to all of mankind.

There probably is not a greater area of unselfish devotion than in the distribution of new medical and scientific knowledge.

There is no competitive race between nations or between research scientists. Rather is there a combined and mutual effort to find a solution to baffling problems.

Medical meetings are open to doctors of all countries. New ideas are proposed, accepted or rejected on the basis of their validity, and not on their geographic origin.

When the polio vaccine was found to be successful, Russia, as well as all other nations, gratefully accepted and used it.

Special heart operations are universally accepted when success has been proven.

A stapling machine for blood vessels and intestines, devised by Russian scientists, has been adopted by the United States because it is a better one than that which is now available.

Jealousy, overambitious competition and distrust have no place in the scientific search for truth.

The sewing of arms and legs severed by accident can be performed by competent surgeons in the United States, in Russia and in many other countries.

Recently, in the New England Journal of Medicine, a remarkable case was reported. A child's arm was completely severed in an accident. The police officer carefully wrapped the dismembered arm and brought it to the hospital.

A team of surgeons, working with precious instruments devised by scientists of many nations, painstakingly sewed artery to artery, vein to vein, muscle to muscle, tendon to tendon, and then rejoined the bones.

Another team of doctors, specially trained to maintain body fluids and chemical balance, hovered over the child for hours.

Transfusions, blood purifiers, antibiotics, hormones and chemical electrolytes were measured minute-by-minute until the arm and the child were revitalized.

Today, the child's arm has almost 90 per cent of its normal function. This experience is no longer unusual, neither in Boston, in New York nor any other city.

This "miracle" is not unique to the United States, to Russia, Scandinavia or to any other nation where trained surgeons practice.

As newer truths come to light, the discoverers will be quick to share these truths with physicians of all countries. A contribution, not a competition is the hope of scientists.

Tobacco, interfering with the blood circulation, can cause leg cramps while walking.

We usually think of grass as little green blades, a few inches tall. But bamboo is considered a grass and it grows to a height of 120 feet in India and China. Other tall grasses are oat grass, about five feet tall, giant wild rye grass, about 10 feet in height, and 12-foot-tall corn grass.

Renewing Our Pride

It was an enchanting evening. The occasion was a dinner in honor of His Majesty King Bhumibol Adulyadej of Thailand and his Queen Sirikit on the lawn of Gracie Mansion, Mayor John Lindsay's official home in New York City. A fireboat on the East River played columns of water against the backdrop of the glittering Triborough Bridge. The King, himself a saxophonist, was treated to some of the most dexterous saxophone numbers imaginable. The air was soft, the champagne was good, and Victor Borge, the comedian and pianist, was at his funniest. But the real marvel of the evening was that doves were entertaining hawks, and doing it as if they thoroughly enjoyed it.

It is no secret that Mayor Lindsay, in common with other big political figures in New York does not love the escalated quality of the war in Vietnam. But the evening had a symbolic meaning: the Mayor was welcoming allies who are committed to winning in Southeast Asia. The speeches were by the King of Thailand, Prime Minister Harold Holt of Australia, and Mayor Lindsay himself. There was nothing political about any of the talks and toasts: King Bhumibol, having come in to Manhattan by helicopter, could only surmise that the Mayor must be a superman to govern the stone wilderness of New York; the Australian P. M. was full of pleasantries; the Mayor, with his memories of World War II, could only exclaim about Thai freedom and "Aussie" valor.

But offstage much of the conversation was about a contemporary war that was being most ably fought, and Victor Borge made the hit of the evening when he said he had just received a message that the Israeli army was about to enter the Connecticut Turnpike, and that he should be excused to go and welcome it. Was it fanciful to think that the Israeli-Arab confrontation had forced its logic on some of the doves present? Clearly, if the U.S. has given its guarantee, the promise should go for the Far East (Thailand, Australia) just as strongly as it does for the Middle East (Israel). Thanat

HOLLYWOOD (AP) — South Seas music, please, maestro. Dorothy Lamour is back.

Not, of course, in her famous sarong. That's in the Smithsonian, near another historic display, Lindbergh's Spirit of St. Louis.

But Miss Lamour—tall, willowy, still beautiful at 49—wants to prove something:

"I don't think people in the industry think I can act. I don't say I'm a great actress. But I do say I can act."

Accordingly, she and her husband of 24 years, William Ross Howard I, have sold the Baltimore house where they've lived for eight years.

They're moving back to Hollywood and next September Dorothy starts a 40-week road tour as star of "Hello, Dolly!" A few days ago she guest-starred as an Arabian shiek's daughter on "I Spy." She appeared on Joey Bishop's show and others.

A comeback? Says Miss Lamour: "Let's just say I want to be more active than I have been."

The onetime New Orleans beauty pageant winner, Chicago elevator operator and touring band singer made more than 50 movies. In "The Road to Singapore" and other Hope-Crosby "Road" pictures, the scrap of colored cloth she wore, plus a gardenia in her dark, waist-long hair, stamped her as "the Sarong Girl."

"I was typed mostly as the highest-paid straight woman in the business," she said without rancor. "I worked with Cantor, Berle, Skelton. I'd have a line like, 'Look!'—and that would plant a joke for them."

Eight years ago there were no more movie offers. She wanted to devote more time to her two growing sons. So the family moved to Baltimore, her husband's home. They'll still have an apartment there and commute to his meat-sauce-and-condiment business.

"I love to cook and do things around the house," Dorothy said, "but sometimes the boys would say, 'Hey, dad, we'd better put mom back to work again. She's getting jumpy.'"

"I'd do a night club or hotel and be fine again. I guess I just have to release the ham in me."

Three years ago she forced herself to start doing plays in summer stock. Theater audiences still scare her. But "Dylo!" will be "an agony I adore."

She has spread the word to producers of "Bonanza," "Gunsmoke" and other drama series: "Find me a good part, put me in as Dorothy Howard, and I'll prove something."

As she spoke, in a booth at the Brown Derby, admiring women lined up for her autograph.

At a convention of Britain's National Association of Head Teachers, the school chiefs voted 492 to 2 against a move to abolish corporal punishment of recalcitrant pupils. That smacks of an almost unanimous agreement.

What we still can't understand is how Alaska became a state before Hawaii achieved that distinction. We wouldn't think even congressmen would prefer polar bears to hula girls.

The temperature of the water at the middle of the Atlantic Ocean is constantly at about 35 degrees Fahrenheit. Just another of those scientific facts that leave us cold!

Azerbaijan Province has far more very aged persons, on an average, than any other part of the Soviet Union, statistics show. That must be one of those places folk are always referring to as the "old country."

Your Health Through Chiropractic

IT'S JUST MY NERVES

DR. HERMAN H. SHUTTLEWORTH

Chiropractor

Quite often patients come to our office saying, "There's nothing wrong with me, it's just my nerves."

Why is it so difficult for us to realize that nerves are as real as a muscle or bone?

Nerves give us no concern unless they are irritated. Nerves become sick when they are compressed, pinched or otherwise un-naturally paralyzed or stimulated.

Gray's Anatomy, a standard textbook of the healing arts, boldly states that the first step in an inflammatory process is heat from hot nerve end-plates caused by irritation.

Four hundred and fifty trillion individual nerve wires composing the spinal cord carry a constant stream of messages between the brain and all parts of the body. They are our transmission lines. All function in the body is coordinated and controlled by these messages sent from the brain. Nerve lines can become scrambled, highly irritated and hot when misaligned spinal vertebrae interfere with their function. Nerve interference will affect any or all of our vital organs causing a multitude of pain and suffering.

In war the first aim toward victory is to disrupt the communication systems, throwing the enemy into a state of turmoil and lowering their resistance. Injury to the spine upsets the delicate communication system disrupting function in the body.

We specialize in clearing communication lines by freeing "sick" nerves. Health naturally results such as this case will illustrate.

This middle aged stenographer, fearful of a nervous breakdown, came to a chiropractor when all other efforts failed. "I'm just a bundle of nerves. My heart races like mad and at times just pounds out of my chest," she said. She had no energy, spells of complete exhaustion, hot flashes, night sweats, dizzy spells and chronic constipation. Constant tension pains in her neck, left shoulder and arm kept her awake nights.

Nerve instruments located severe nerve pressures in her spine and x-rays enabled us to realign the offending vertebrae causing all the disturbance with her nervous system. Her miserable symptoms vanished as normal functions returned. She stays healthy by a regular monthly check-up as hundreds of other healthy patients do.

Presented in the public interest for better health through chiropractic.

The speeches were by the King of Thailand, Prime Minister Harold Holt of Australia, and Mayor Lindsay himself. There was nothing political about any of the talks and toasts: King Bhumibol, having come in to Manhattan by helicopter, could only surmise that the Mayor must be a superman to govern the stone wilderness of New York; the Australian P. M. was full of pleasantries; the Mayor, with his memories of World War II, could only exclaim about Thai freedom and "Aussie" valor.

But offstage much of the conversation was about a contemporary war that was being most ably fought, and Victor Borge made the hit of the evening when he said he had just received a message that the Israeli army was about to enter the Connecticut Turnpike, and that he should be excused to go and welcome it. Was it fanciful to think that the Israeli-Arab confrontation had forced its logic on some of the doves present? Clearly, if the U.S. has given its guarantee, the promise should go for the Far East (Thailand, Australia) just as strongly as it does for the Middle East (Israel). Thanat

Khoman, the brilliant and peppy Thai Minister of Foreign Affairs who had accompanied his King's party to New York, was saying nothing, but he could hardly have avoided speculating on the possibility that the Israelis had waked New Yorkers up to an old truth, that it is not good to take aggression lying down.

When I was in Thailand ten months ago I was impressed

By GENE HANDSAKER  
HOLLYWOOD (AP) — South Seas music, please, maestro. Dorothy Lamour is back.

Not, of course, in her famous sarong. That's in the Smithsonian, near another historic display, Lindbergh's Spirit of St. Louis.

But Miss Lamour—tall, willowy, still beautiful at 49—wants to prove something:

"I don't think people in the industry think I can act. I don't say I'm a great actress. But I do say I can act."

Accordingly, she and her husband of 24 years, William Ross Howard I, have sold the Baltimore house where they've lived for eight years.

They're moving back to Hollywood and next September Dorothy starts a 40-week road tour as star of "Hello, Dolly!" A few days ago she guest-starred as an Arabian shiek's daughter on "I Spy." She appeared on Joey Bishop's show and others.

A comeback? Says Miss Lamour: "Let's just say I want to be more active than I have been."

The onetime New Orleans beauty pageant winner, Chicago elevator operator and touring band singer made more than 50 movies. In "The Road to Singapore" and other Hope-Crosby "Road" pictures, the scrap of colored cloth she wore, plus a gardenia in her dark, waist-long hair, stamped her as "the Sarong Girl."

"I was typed mostly as the highest-paid straight woman in the business," she said without rancor. "I worked with Cantor, Berle, Skelton. I'd have a line like, 'Look!'—and that would plant a joke for them."

Eight years ago there were no more movie offers. She wanted to devote more time to her two growing sons. So the family moved to Baltimore, her husband's home. They'll still have an apartment there and commute to his meat-sauce-and-condiment business.

"I love to cook and do things around the house," Dorothy said, "but sometimes the boys would say, 'Hey, dad, we'd better put mom back to work again. She's getting jumpy.'"

"I'd do a night club or hotel and be fine again. I guess I just have to release the ham in me."

Three years ago she forced herself to start doing plays in summer stock. Theater audiences still scare her. But "Dylo!" will be "an agony I adore."

She has spread the word to producers of "Bonanza," "Gunsmoke" and other drama series: "Find me a good part, put me in as Dorothy Howard, and I'll prove something."

As she spoke, in a booth at the Brown Derby, admiring women lined up for her autograph.

by the respect which the Thais, from their Foreign Minister on down, had for American power. Their only worry seemed to be over the fact—a crazy fact, to them—that some Americans doubted themselves. The Israeli success, while it was won by the Israelis alone, ought to cause some of those doubting Americans to rethink their position.

For the Israelis had carried off their victory in the field because they had learned what it is the West's to give, the ability to harness and coordinate machines to achieve an end that is decided upon, not by the machines themselves, but by the human spirit.

The Egyptians had machines, too. But they conspicuously lacked know-how. The Israelis, going back to Palestine in the Nineteen Forties and Fifties, not only took a Biblical dream of a reconstituted state with them, but they also took a great practicality. They had men who knew what sparkplugs were for, and that tanks can't move if the oil supply runs out, and that the idea inculcated by western sport, that the best defense is a good offense, goes for war, too.

I can't believe for a moment that if the United States were really to apply itself to winning in Vietnam it couldn't bring that war to a close far short of the "ten years" that is mentioned by the pessimists. The age of colonialism is dead, and only idiots and Marxist fakers keep talking about it as if it were still a reality. But the West, in giving up on colonialism, does not need to feel apologetic about lending its technology and its fighting force to those who would reorganize the world in freedom.

The minute that Victor Borge, performing for the King and Queen of Thailand and the Prime Minister of Australia, paid his compliment to the Israeli adaptation of western capacities, the logic on Mayor Lindsay's lawn was plain: the West should forget its doubts and renew its old pride in what it can do.

At a convention of Britain's National Association of Head Teachers, the school chiefs voted 492 to 2 against a move to abolish corporal punishment of recalcitrant pupils. That smacks of an almost unanimous agreement.

What we still can't understand is how Alaska became a state before Hawaii achieved that distinction. We wouldn't think even congressmen would prefer polar bears to hula girls.

The temperature of the water at the middle of the Atlantic Ocean is constantly at about 35 degrees Fahrenheit. Just another of those scientific facts that leave us cold!

Azerbaijan Province has far more very aged persons, on an average, than any other part of the Soviet Union, statistics show. That must be one of those places folk are always referring to as the "old country."

## IT'S JUST MY NERVES

DR. HERMAN H. SHUTTLEWORTH  
Chiropractor

Quite often patients come to our office saying, "There's nothing wrong with me, it's just my nerves."

Why is it so difficult for us to realize that nerves are as real as a muscle or bone?

Nerves give us no concern unless they are irritated. Nerves become sick when they are compressed, pinched or otherwise un-naturally paralyzed or stimulated.

Gray's Anatomy, a standard textbook of the healing arts, boldly states that the first step in an inflammatory process is heat from hot nerve end-plates caused by irritation.

Four hundred and fifty trillion individual nerve wires composing the spinal cord carry a constant stream of messages between the brain and all parts of the body. They are our transmission lines. All function in the body is coordinated and controlled by these messages sent from the brain. Nerve lines can become scrambled, highly irritated and hot when misaligned spinal vertebrae interfere with their function. Nerve interference will affect any or all of our vital organs causing a multitude of pain and suffering.

In war the first aim toward victory is to disrupt the communication systems, throwing

the enemy into a state of turmoil and lowering their resistance. Injury to the spine upsets the delicate communication system disrupting function in the body.

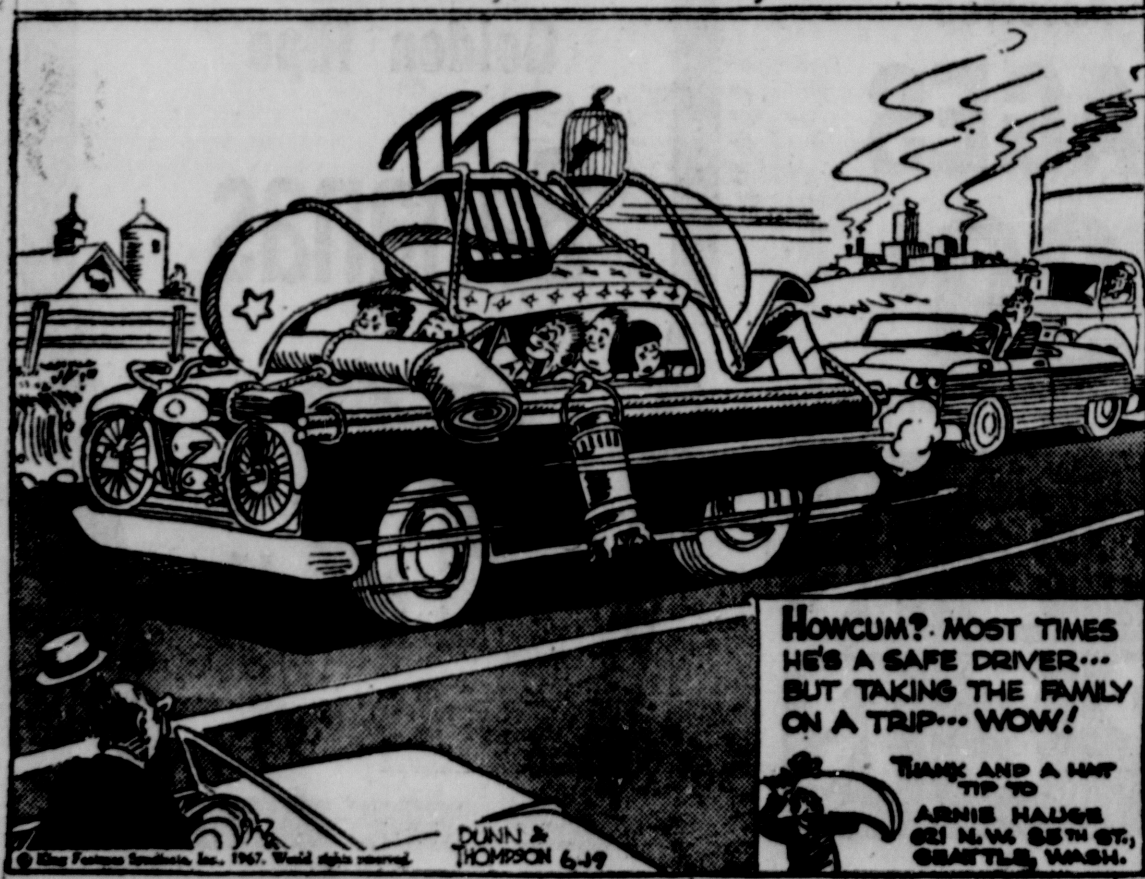

We specialize in clearing communication lines by freeing "sick" nerves. Health naturally results such as this case will illustrate.

This middle aged stenographer, fearful of a nervous breakdown, came to a chiropractor when all other efforts failed. "I'm just a bundle of nerves. My heart races like mad and at times just pounds out of my chest," she said. She had no energy, spells of complete exhaustion, hot flashes, night sweats, dizzy spells and chronic constipation. Constant tension pains in her neck, left shoulder and arm kept her awake nights.

Nerve instruments located severe nerve pressures in her spine and x-rays enabled us to realign the offending vertebrae causing all the disturbance with her nervous system. Her miserable symptoms vanished as normal functions returned. She stays healthy by a regular monthly check-up as hundreds of other healthy patients do.

Presented in the public interest for better health through chiropractic.

Tobacco, interfering with the blood circulation, can cause leg cramps while walking.

We usually think of grass as little green blades, a few inches tall. But bamboo is considered a grass and it grows to a height of 120 feet in India and China. Other tall grasses are oat grass, about five feet tall, giant wild rye grass, about 10 feet in height, and 12-foot-tall corn grass.

## Mrs. Harrison Attends Reunion At Hood College

Mrs. Michael R. Harrison of Circleville, Ohio, was among the more than 300 alumnae who returned to Hood College in Frederick, Md., last weekend for the college's annual Alumnae Weekend.

This year the returning alumnae revisited the classroom, attending seminars devoted to exploring some of today's most controversial issues - issues such as the "Death of God Controversy" and "American Foreign Policy Today." Hood faculty members, experts in their fields of study, conducted the seminars.

Dr. Randle Elliott, president of the liberal arts college for women, gave the keynote address Friday evening, introducing the weekend's theme, "Old Values-New Issues."

The weekend was a family affair, with Saturday devoted to the morning classes, the annual Alumnae Luncheon, a picnic for the children, and an afternoon of golf, swimming, tennis, and horseback riding. Reunion dinners were held that evening.

The weekend ended with a morning worship service Sunday in Coffman Chapel on campus, conducted by the Rev. Henry A. W. Schaeffer of St. John's United Church of Christ in Baltimore, Md., and the Rev. James A. Smith, Jr., college chaplain.

## Union Guild Holds Meeting In Terry Home

The Union Guild met Wednesday in the home of Mrs. Lucille Terry, 827 Pershing Drive, with Mrs. Hazel Mowery as assistant hostess.

Mrs. Wayne Fee presided at the meeting, with 14 members answering roll call. The welfare chairman reported that a donation had been made to a local drowning victim's family. Mrs. Willard Dudson and Mrs. Pauline Schooley were in charge of the program. Readings were given by Mrs. Gladys Russell, Mrs. Martha Krimmel and Mrs. Bertha Brown. Mrs. Schooley won a contest that was held for the group.

Guild benediction closed the meeting and then refreshments were served by the hostesses.

The next meeting will be held in the home of Mrs. Ruby Goodman, Route 1, Groveport, with Mrs. Gloria McGarvey as co-hostess.

Baking potatoes weighing about half a pound apiece will need about an hour's baring in a 450-degree oven.

## NBC Will Run Garrison Show Monday Night

NEW YORK (AP) — A spokesman for the National Broadcasting Co.—in the face of objections by New Orleans Dist. Atty. Jim Garrison—says the network definitely will telecast tonight a program criticizing aspects of Garrison's investigation of the assassination of President John F. Kennedy.

William R. McAndrew, president of NBC News, also said Sunday the network expected Garrison to demand equal time and the network was "prepared for it."

The program, entitled "The JFK Conspiracy — the Case of Jim Garrison," is scheduled for 8 to 9 p. m. EDT.

Garrison has said the actions of NBC make him believe it has a "calculated objective" of destroying his case against Clay L. Shaw in Garrison's investigation of the assassination.

Garrison has obtained an indictment charging Shaw, a retired New Orleans businessman, with conspiracy to murder in the death of Kennedy in Dallas Nov. 22, 1963.

Garrison sent a six-page letter of complaint to Rosel H. Hyde, chairman of the Federal Communications Commission. It said NBC "has been so aggressive in attacking the state of Louisiana's case against Shaw prior to trial as to have gone far beyond the pretense of merely gathering and disseminating news."

Garrison asked that NBC not be allowed "to use the public airways to accomplish such mean ends."

A spokesman for the FCC said in Washington Sunday that Garrison's letter had not been received.

In any event, the spokesman said, the commission is prohibited by law from determining the content of television programs.

Garrison contends that the Kennedy assassination was the result of a conspiracy, and he disputes the Warren Commission's findings that Lee Harvey Oswald acted alone.

The NBC program includes a statement that two principal witnesses in Garrison's case against Shaw had previously failed Garrison's lie detector tests.

Dr. Randle Elliott, president of the liberal arts college for women, gave the keynote address Friday evening, introducing the weekend's theme, "Old Values-New Issues."

The weekend was a family affair, with Saturday devoted to the morning classes, the annual Alumnae Luncheon, a picnic for the children, and an afternoon of golf, swimming, tennis, and horseback riding. Reunion dinners were held that evening.

The weekend ended with a morning worship service Sunday in Coffman Chapel on campus, conducted by the Rev. Henry A. W. Schaeffer of St. John's United Church of Christ in Baltimore, Md., and the Rev. James A. Smith, Jr., college chaplain.

## Union Guild Holds Meeting In Terry Home

The Union Guild met Wednesday in the home of Mrs. Lucille Terry, 827 Pershing Drive, with Mrs. Hazel Mowery as assistant hostess.

Mrs. Wayne Fee presided at the meeting, with 14 members answering roll call. The welfare chairman reported that a donation had been made to a local drowning victim's family.

Mrs. Willard Dudson and Mrs. Pauline Schooley were in charge of the program. Readings were given by Mrs. Gladys Russell, Mrs. Martha Krimmel and Mrs. Bertha Brown. Mrs. Schooley won a contest that was held for the group.

Guild benediction closed the meeting and then refreshments were served by the hostesses.

The next meeting will be held in the home of Mrs. Ruby Goodman, Route 1, Groveport, with Mrs. Gloria McGarvey as co-hostess.

Baking potatoes weighing about half a pound apiece will need about an hour's baring in a 450-degree oven.

## NBC Will Run Garrison Show Monday Night

NEW YORK (AP) — A spokesman for the National Broadcasting Co.—in the face of objections by New Orleans Dist. Atty. Jim Garrison—says the network definitely will telecast tonight a program criticizing aspects of the assassination of President John F. Kennedy.

William R. McAndrew, president of NBC News, also said Sunday the network expected Garrison to demand equal time and the network was "prepared for it."

The program, entitled "The JFK Conspiracy — The Case of Jim Garrison," is scheduled for 8 to 9 p.m. EDT.

Garrison has said the actions of NBC make him believe it has a "calculated objective" of destroying his case against Clay L. Shaw in Garrison's investigation of the assassination.

Garrison has obtained an indictment charging Shaw, a retired New Orleans businessman, with conspiracy to murder in the death of Kennedy in Dallas Nov. 22, 1963.

Garrison sent a six-page letter of complaint to Rosel H. Hyde, chairman of the Federal Communications Commission. It said NBC "has been so aggressive in attacking the state of Louisiana's case against Shaw prior to trial as to have gone far beyond the pretense of merely gathering and disseminating news."

Garrison asked that NBC not be allowed "to use the public airways to accomplish such mean ends."

A spokesman for the FCC said in Washington Sunday that Garrison's letter had not been received.

In any event, the spokesman said, the commission is prohibited by law from determining the content of television programs.

Garrison contends that the Kennedy assassination was the result of a conspiracy, and he disputes the Warren Commission's findings that Lee Harvey Oswald acted alone.

The NBC program includes a statement that two principal witnesses in Garrison's case against Shaw had previously failed Garrison's lie detector tests.

## Calvary EUB WSWS Meets

"Being Christian in Family Relationship" was the topic for the program of WSWS of Calvary EUB Church meeting held recently, presented by Mrs. Dale DeLong, president.

The meeting was held in the church annex with 19 members present. Mrs. Talmer Wise and Miss Eleanor Wilson were co-hostesses.

Mrs. DeLong opened the meeting with a welcome. The group sang "Make Me a Blessing". Miss Wilson offered prayer.

Miss Wilson, spiritual life secretary, in making her report, stressed that we remember Bible School that is in progress in prayer, also the Christian Layman's convention.

Mrs. DeLong gave some of the highlights of the Missionary Convention held in April. She showed the award received for the extra effort the society had made in going beyond their goal in money last year.

The July meeting of the group will be a picnic at Ted Lewis Park.

## Laser To Be New Traffic Guardian

By GROVER BRINKMAN  
Central Press Association  
Correspondent

DETROIT, Mich.—That radar and the common bat (the winged variety found in belfries and caves) have something in common is fairly well known.

However, to say that combining a principle known by bats for centuries with one known by scientists for a slightly longer period might save your life while driving your car could raise some eyebrows.

The laser beam—still mysterious to many people—may play a magnificent role in safety on the highway in the year just ahead.

"Tailgate" travel—too close to the fellow ahead—is the cause today of many accidents and deaths on the highway. The laser beam might solve that problem in the future, or at least warn the driver of impending peril.

A laser beam device on each auto would be capable of measuring the distance to the car ahead. It could give the driver instant warning if he is following too closely for the speed of both cars. The same device could also signal when someone is too close behind him.

The term "laser" is an acronym derived from "Light Amplification by Stimulated Emission of Radiation."

### His Times Are Out of Joint

ATLANTA, Ga. (AP)—A spokesman at the Atlanta office of the Weather Bureau said recently that the bureau is presenting him problems. "I have three clocks in front of me and they all say different times."

Weather observations are done by Eastern Standard Time but workers arrive and depart on Daylight Saving Time. "When we get here, all our observation data is done on the old regular time," the spokesman said. "It's confusing."

### Heart Attack

CHILLICOTHE, Ohio (AP)—James W. Rinkliff, 70, Rt. 1, Chillicothe, died of a heart attack when his car ran off Ohio 104 north of here Sunday, according to the Ross County coroner.

sion of Radiation." This special concentrated light is so lined up that it delivers a high-energy level along a narrow beam that does not spread out.

The laser beam can be used to cut sheet steel, or pulverize hardest rock. At full peak its power is phenomenal. Some fiction writers have even called it a "death ray." But by the same token, the laser can be toned down so that it would not disturb the fuzz on a ripening peach.

The amazing thing about the laser is its incredible accuracy to "measure" light at all speeds, from a snail inching along on a wet rock, to a rocket zooming off into space.

Applying the laser to the man behind the wheel, if it indicates he is traveling 72.987 miles an hour, that is it. It is so accurate it would never be questioned in any traffic court.

Recently one of the nation's major electric firms paraded before our auto makers a series of electronic gimmicks designed for better auto safety.

Tail-gate driving, especially on our freeways leading into congested cities, is a mounting accident potential. Everyone drives so close that when the car ahead gets in trouble, there is a sudden crash-crash-crash, and perhaps as many as 20 machines all telescope into one mad jumble of interlocked fenders, bumpers and broken bodies.

The auto makers were shown how a small beam of infrared light could be directed in brief pulses straight ahead. When this beam struck a car it would be reflected back in time-counted to the billionth of a second.

This laser is so accurate that it can be measured in nano-seconds, which is one-billionth of a second. Light travels one foot in one-billionth of a second. If one of these beams is sent out, bounces off the car ahead and returns in 100 nano-seconds later, the radiation has traveled 100 feet, and therefore the object is 50 feet away.

Thus by measuring the time distance between the transmitted and received impulses, we can measure distance. Bats have been doing this with sound waves since time immemorial. All summed up, the new gimmick some day might be a real life-saver!

## Cassius Clay Goes on Trial

HOUSTON (AP)—World heavyweight champion Cassius Clay headed into an important round against Uncle Sam today, the fighter's trial for standing still when other men called by the draft took one step forward into the Army.

If the 25-year-old fighter is convicted of violating the Universal Military Training and Service Act, he could be fined up to \$10,000 and sentenced to five years in prison.

U. S. Dist. Judge Joe Ingraham went into the trial with no stated rulings on news coverage, but he pointed out that his courtroom is small, and "we've never had demands like this."

The case is a jury trial, but Ingraham's rulings on matters of law will be all-important.

Today's first order of business was the judge's opening statement to the 150-member jury.

U. S. Atty. Morton L. Susman said the government's case could be completed in two hours with four witnesses, all of them officials of the Selective Service System. Susman was joined in the case by Alfred T. Ghorzi of the Justice Department's criminal division and by Marine Col. Robert Todd Hays, assistant to the general counsel of the Selective Service System.

Hayden Covington of New York City was Clay's chief counsel, joined by Quinlan Hodges of Houston.

Covington predicted the trial would end by Tuesday afternoon at the latest. He readied a double defense: that Clay is draft exempt as Black Muslim minister Muhammad Ali, and that Clay and other Negroes are systematically discriminated against by draft boards, which Covington argues are unfairly

## They Can't Tell Time In Michigan

HOUGHTON, Mich. (AP)—Times are changing in Michigan's Upper Peninsula faster than residents, the state's attorney general and the U.S. Transportation Department can keep up with them.

Michigan first stayed on Eastern Standard Time while nearly everyone else went on Daylight Time. But Wednesday, after a prolonged legislative battle, the state went on Eastern Daylight Time.

However, with the exception of two counties at the eastern tip, the Upper Peninsula decided it wanted to go on Central Daylight Time, which is the same as Eastern Standard Time.

The area is tied to Wisconsin—in the Central time zone—by land and economically. The Straits of Mackinac divide it from the remainder of Michigan.

Transportation Secretary Allan S. Boyd said Friday the Upper Peninsula belongs in the Central time zone.

Michigan Atty. Gen. Frank Kelley said the whole state belongs on Eastern Daylight Time.

Kelley said he and Gov. George Romney would study the situation and hold a formal hearing.

But at 1:50 a. m. CDT Friday, a bartender in Escanaba was serving drinks. Michigan bars are supposed to stop at 2 a. m.

Two state troopers walked in and told owner Marvin Pouliet it was 2:50 a. m. EDT and he was operating after legal hours. Pouliet said it was 1:50 a. m. CDT and he wasn't serving after hours. The troopers left, saying they hadn't received any official word on what to do in such a situation.

Clay, a native of Louisville, Ky., made his home in Houston last year after a fight in the domed stadium. He is undefeated in 29 bouts, including 23 victories by knockout.

## Ohio Legislature

# New Tax Increase Bill Readied for Assembly

COLUMBUS, Ohio (AP)—An administration bill calling for a series of tax increases to raise more funds for education was being readied today as the Ohio General Assembly returned from weekend recess.

Sources said the proposals were designed to raise up to \$245 million to channel more money into elementary, secondary, and higher education. A special committee named by Gov. James A. Rhodes has recommended budget additions of \$180 million and \$85 million, respectively, for elementary and secondary education and higher education.

Tax increases to be included in the omnibus measure are a 1 per cent tax on retailers, increasing the cigarette tax from 5 to 7 cents a package, and lowering the penny sales tax bracket so that it would take effect at 11 instead of 31 cents.

State Finance Director Richard Krabach said the legislature also will be asked to increase from 30 to 35 per cent the markup from what the state liquor monopoly pays distillers.

Krabach explained that this would be sort of a "stop gap" move in case there is more

slippage than anticipated from the new revenue sources.

Although tax talk figures to dominate the General Assembly's 24th work week, the lawmakers have scheduled a full round of committee hearings on

other controversial matters.

The House Judiciary Committee will call for testimony again Tuesday on perennial bills to abolish capital punishment.

Advocates of higher welfare payments will get another chance to speak Tuesday night before the Senate Finance Committee. Chairman Robert R. Shaw R-16 Columbus said he expects a big crowd as the committee reviews proposed welfare expenditures in the \$4.9 billion operating budget.

At earlier House hearings, various welfare and church groups appealed for the state to pay the entire cost of bringing aid to dependent children payments from the present 78 per cent to 100 per cent of recommended standards.

The budget proposes that the state and counties share the added cost estimated at \$70 million over the next two years. The budget includes \$35 million for the state's share.

Other bills up for hearing this week in the two houses would increase the strength of the Highway Patrol from 850 to 1,000, set up a foundation program to provide minimum salaries for deputy sheriffs and municipal police officers, permit private insurance companies to sell workmen's compensation, provide uniform contracts for high school yearbook photography, and permit municipalities to levy a sales tax on hotel and motel rooms.

## 25,000 Mile Pub Crawl Set

SYDNEY (AP)—A "pub crawl" in Australia means starting at one end of a city street (preferably the longest) and traversing it to the other, calling at every hotel on the way for one glass of beer. This can be money and time consuming.

An even more time and money consuming pub crawl is being organized by a group of 30 Australian publicans who plan what they describe as the world's est pub crawl — 25,000 miles through more than 20 countries.

It is officially described as a "study tour" and will cost each participant \$2,000 (U.S. \$2240).

The organizers are a hotel keeper of Adelaide, South Australia and a travel agent.

Flanagan says: "The party intends to study beer, hotels, bars, nighteries and clubs in among other countries, Thailand, Italy, Germany, Austria, Scandinavia, Britain, France, Switzerland, Hong Kong and Singapore."

The pub crawl will begin in September and will reach Munich in time for the celebrated Oktoberfest.

Statistics show Australians are only second highest in consumption of beer — but they try harder.

## Young Man Charged With Killing Father

COLUMBUS, Ohio (AP)—The Franklin County sheriff charged a young Hilltop area man with second-degree murder Sunday night in the fatal shooting of his father.

## Fatally Shot As Intruder

WARREN, Ohio (AP)—Arthur Vines, 35, of Struthers was fatally shot Sunday after he removed the back screen door at the home of Mr. and Mrs. James Gillette in Hubbard, Trumbull County sheriff's deputies said.

Deputies said Vines left a club in Hubbard, took his auto and smashed it into a tree, then walked to the Gillette home. Gillette fired with a 22-caliber rifle after ordering Vines to leave, deputies said.

Ten days later, a federal grand jury in Houston indicted Clay. He entered a plea of innocent and went free on \$5,000 bond.

Covington predicted the trial would end by Tuesday afternoon at the latest. He readied a double defense: that Clay is draft exempt as Black Muslim minister Muhammad Ali, and that Clay and other Negroes are systematically discriminated against by draft boards, which Covington argues are unfairly

loaded with whites.

Clay, a native of Louisville, Ky., made his home in Houston last year after a fight in the domed stadium. He is undefeated in 29 bouts, including 23 victories by knockout.

He was called to the Army April 28 and that day at the Houston Customs House, balked at the oath-taking.

WASHINGTON (AP) — The 10th child of Sen. and Mrs. Robert F. Kennedy was christened Sunday but for one of the Kennedy children the ceremony was something of a disappointment.

Douglas Harriman Kennedy was christened at St. Luke's Roman Catholic church in suburban McLean, Va. Standing by were his honorary godfathers, Ambassador at Large Averell Harriman and C. Douglas Dillon, former Treasury secretary.

The other Kennedy children were there too — just as they were last month in Norfolk, Va., when the aircraft carrier John F. Kennedy was christened. Apparently having a fixed idea of what christenings are all about, Christopher Kennedy, 4, reportedly asked his mother during the church christening: "Aren't we going to break a bottle of champagne over the baby's head?"

WASHINGTON (AP) — Today is the fourth birthday of Tiro 7, America's oldest operating weather satellite.

As a television sentinel in space it has often tracked major hurricanes and has taken more than 124,500 pictures of 50 billion square miles of the earth and its cloud cover. It has traveled 594 million miles and circled the earth 21,600 times.

Tiro 7 was launched from Cape Kennedy, Fla., June 19, 1963. Lately the satellite has been commanded to send back pictures only occasionally, but scientists at the Goddard Space Flight Center in nearby Greenbelt, Md., plan to turn the equipment on today and say they expect the usual perfect performance.

## The World Today

WASHINGTON (AP) — Before the end of the Israeli-Egyptian war debate, opening today in the U.N. General Assembly, the United States and the Soviet Union may get along better or worse. It's that unpredictable.

But cynicism is part of the bloodstream of the United Nations which, at the time of its holy of holies, or so the world hoped then.

The Soviets, who promised the Arabs their support if they got into war with Israel, did nothing except piously protest violence when the war came and the Israelis demolished the Egyptians. This cost the Soviets dearly in Arab confidence.

So what they did when the quick war ended was obvious: They set out to recapture Arab goodwill by asking the U.N. Security Council to condemn Israel as an aggressor and demand it withdraw from the Arab land it seized.

The Soviets lost on this maneuver in the council when a majority of the 15 members, including the United States, refused to go along. So then Moscow asked the full Assembly to do what the council refused to do.

This was a switch. In 1961, when India overran the Portuguese enclave of Goa-Daman-Diu on the southwest coast of India, territory Portugal had held since the 16th century, the United States, Britain and France asked the Security Council to condemn India's aggression and demand it withdraw.

The Soviets, who had praised the Indian attack, vetoed this proposal. Egypt also opposed it

In 1956, when Moscow sent its army into Hungary to crush the anti-Communist revolt there, the United States asked the Security Council, with the support of 10 other members, to condemn the action and demand Soviet withdrawal. Moscow vetoed this.

This time, in the General Assembly, the Soviets may try to fry a lot of fish. Posing as friend of the Arabs, it can seek to make the United States look pro-Israel and anti-Arab, which the Arabs think it is anyway.

For the Soviets this would be a worthwhile project if the result froze the United States out of the Middle East, which doesn't seem likely, and made itself the dominant force.

But the unpredictables in all this are endless.

Soviet-American relations have been improving, and the Soviets showed reason and restraint when the Mideast war broke out. It's possible that, while trying to endear themselves to the Arabs all over again by castigating Israel, they will try to avoid anything that would anger the United States.

It seems likely that no matter what the General Assembly says about the Israeli-Arab war it will have little effect on a Mideast settlement.

For instance, suppose the Assembly says Israel and the Arabs ought to get together and work out a settlement. Or suppose its condemnations Israel and tells it to withdraw and return to the Arabs the land seized in the war.

Before the Assembly could even meet to discuss such prob-

lems the Egyptian ambassador to the United Nations, Mohamed El Kony, ruled out Sunday any Israeli-Arab negotiations.

He said, "By all means we are going to get our territory back, whatever the cost." Further, he said, even if President Johnson and Soviet Premier Alexei N. Kosygin, who is in New York for the debate, had a summit meeting they "couldn't arrange anything without our consent."

And the Israeli Foreign Minister, Abba Eban, who is also in New York, said Sunday there would be no return to pre-war boundaries "even if the General Assembly votes 121 to 1 in favor of it." He said the Arabs would have to negotiate with Israel about getting their real estate back.

One of the most fascinating parts of the debate will be the American role. It's a good guess the United States will at least start out on a soft line, perhaps letting Israel set off the oratorical fireworks, to avoid any unnecessary showdowns.

FARMINGTON, N. M. (AP) — Courtesy is never too old in this northwestern New Mexico city, says Mayor Floyd Davis.

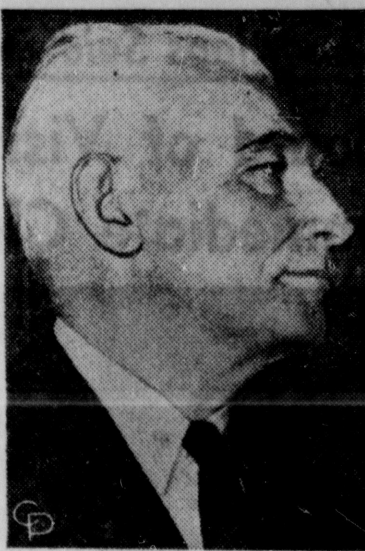

The mayor said Mrs. Frank Macaluso, received a courtesy ticket from a Welcome Wagon hostess when she moved to Farmington in 1951.

The courtesy ticket, the mayor said, permitted her to commit one traffic violation without requiring payment of a fine.

The mayor said Mrs. Macaluso was given a traffic violation ticket a few days ago for going 18 miles per hour in a 15 mile per hour zone. When Mrs. Macaluso took her courtesy ticket to the police station, the mayor said, she was told it was too old.

Davis said he felt there was an obligation to honor the actions of past mayors and city councils. Councilman Dr. Francis Reilly agreed.

Before the Assembly could even meet to discuss such prob-

lems the Egyptian ambassador to the United Nations, Mohamed El Kony, ruled out Sunday any Israeli-Arab negotiations.

He said, "By all means we are going to get our territory back, whatever the cost." Further, he said, even if President Johnson and Soviet Premier Alexei N. Kosygin, who is in New York for the debate, had a summit meeting they "couldn't arrange anything without our consent."

And the Israeli Foreign Minister, Abba Eban, who is also in New York, said Sunday there would be no return to pre-war boundaries "even if the General Assembly votes 121 to 1 in favor of it." He said the Arabs would have to negotiate with Israel about getting their real estate back.

One of the most fascinating parts of the debate will be the American role. It's a good guess the United States will at least start out on a soft line, perhaps letting Israel set off the oratorical fireworks, to avoid any unnecessary showdowns.

## Time Limit On Courtesy?

FARMINGTON, N. M. (AP) — Courtesy is never too old in this northwestern New Mexico city, says Mayor Floyd Davis.

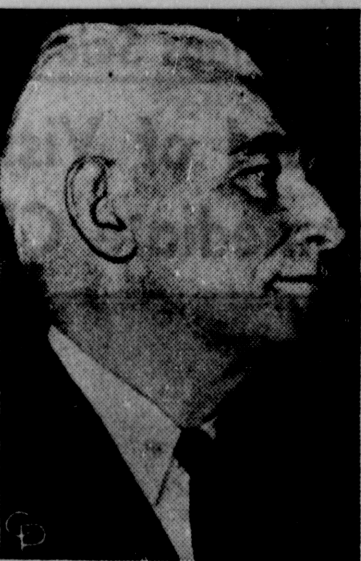

The mayor said Mrs. Frank Macaluso, received a courtesy ticket from a Welcome Wagon hostess when she moved to Farmington in 1951.

The courtesy ticket, the mayor said, permitted her to commit one traffic violation without requiring payment of a fine.

The mayor said Mrs. Macaluso was given a traffic violation ticket a few days ago for going 18 miles per hour in a 15 mile per hour zone. When Mrs. Macaluso took her courtesy ticket to the police station, the mayor said, she was told it was too old.

Davis said he felt there was an obligation to honor the actions of past mayors and city councils. Councilman Dr. Francis Reilly agreed.

The mayor said he would take

## Now Possible To Shrink Painful Hemorrhoids

And Promptly Stop The Itching, Relieve Pain In Most Cases.

New York, N.Y. (Special): Science has found a medication with the ability, in most cases — to promptly stop itching, relieve pain and actually shrink hemorrhoids.

Tests by doctors proved that in case after case, while gently relieving pain, actual reduction

of the inflamed hemorrhoids took place.

The secret is Preparation H®. There's no other formula like it! Preparation H also soothes irritated tissues and helps prevent further infection. In ointment or suppository form.

# Board of Visitors Recommends Immediate Closing of City Jail

MUCH NEEDED IMPROVEMENTS — This picture is but a glimpse of the much needed improvements in the jail basement of city hall. The photo, inside of one of the cells, shows the holes in the wall caused by age and lack of repairs. The County Board of Visitors has recommended the jail be closed.

By PETER WILLS  
Herald Staff Writer

In an effort to remedy a situation described as deplorable in the basement of City Hall, the newly reorganized Pickaway County Board of Visitors has recommended that the jail be closed immediately.

Objections listed in a report on the city jail that was sent to the Health Commissioner and to the Mayor last Friday were: the dilapidated condition of the stairs that lead to the cells; the general unsanitary conditions under which a prisoner may spend up to two days; the lack of proper bedding; the unhealthy damp atmosphere that prevails in the cells and the unsightly and troublesome plaster which is constantly falling from the walls and ceiling.

"These conditions have existed for many years," Chief of Police Robert Temple said in commenting on the report, "with no change for the better. The city jail must definitely be replaced."

The hand rail along the side of the steps going down to the cells has been pulled out of the wall in at least two places and is loose elsewhere, observers noted.

AN OFFICER guiding an intoxicated or belligerent person down the steps has his hands full because of the condition of the steep stairway, the report points out.

"Many minor accidents have resulted because of the state of disrepair," Chief Temple noted. "Everything from bumps and scratches from slipping on the steps to torn uniforms when they catch on the loose hand railing."

All injuries are not of the minor type, however. Recently Onno Wilson, a prisoner, fell down the steps and fractured several ribs. Not only was this accident painful to Wilson, but also to the city. The hospital bill received by Chief Temple exceeded \$1,000.

Sanitary conditions leave much to be desired also. "This is our main problem," relates Temple. "It's a real job to try to keep things clean down there."

Water is given to prisoners in a bucket from which all drink. Great are the chances of spreading sickness if a prisoner has a communicable disease.

There is in each cell only one bench that measures ap-

proximately 12 inches by eight feet. No bedding is provided for prisoners.

IN A SMALL room in the cells there is, however, a commode of ancient origin. It lacks a seat and is not the most pleasant sight to behold.

An automatic flushing device is hooked to the toilets that operates at frequent intervals. It is working constantly, and consequently is a cost to the city since there isn't a shut-off valve.

"Rats have also been a problem from time to time and they are always a health menace," reports Temple.

"We have tried to get things redone and fixed up here, but it seems that we always run into some bad luck," says the chief.

One complaint voiced in the report of the Visitors was that of the number of prisoners occasionally kept in the small cells.

During Pumpkin Show a few years back, 51 men were kept in one side of the jail while one woman was confined in the other side.

JUVENILES have also been confined in the cells for a week-end. The report prepared by the Board stated that it was frightening to realize that a person could be put in the jail for anything from traffic violations to serious crime, awaiting a court hearing.

"No matter what the reason for confinement, the cells are not fit for animals, let alone the most hardened human being," the report states.

Falling plaster is another problem connected with the jail. Large holes can be found in the walls and ceiling. The loosened plaster is more trouble than harmful because it must be swept up much too often in an attempt to keep the cells clean.

In a lighter vein, Chief Temple said that he likes to think that Edgar Allen Poe got his inspiration for writing the famous "The Pit and the Pendulum" from the "pit" in the basement of the City Hall.

The Board of Visitors offered no solution to the problem of holding prisoners if the jail were closed.

"Perhaps an arrangement could be worked out with the county," was one suggestion submitted by the Board.

THE report of the Board

stated that the entire City Building was found to be inadequate, singling out the City Health Department.

"The room the nurse works in, counsels in, and gives immunizations in is much too small—eight feet by eight feet at best. The adjoining room for the nurse's only secretary is not much larger."

"The board recommends that better facilities be made available to the entire City Building and that additional personnel be added immediately," declared the report.

A County Board of Visitors is provided by the Ohio General Code. It has, however, been inactive in Pickaway County for nearly five years, according to present members.

Probate Judge Guy Cline recently revived the Board of Visitors and appointed six members.

The Board is required to inspect public buildings and institutions and make a full report of their findings to the probate judge and the prosecuting attorney in the county. They are also asked to make recommendations pertaining to the improvement of the buildings, if needed.

THE BOARD is also required to make a full report to the State Board of Charities between Nov. 15 and Dec. 15, of each year of all their activities during the year.

Members of the Pickaway County Board include Jim Sykes of Williamsport, Virginia Luckhart of Laurelville, Mrs. Frank Moore, O. Charles Hosterman, Dr. H. H. Swope and Mrs. W. P. Yamarick, all of Circleville.

# 500 Guerrillas Attack Bivouac

SAIGON (AP) — A hard-core battalion of some 500 guerrillas left 45 dead on a blackened battlefield today after failing to storm the bivouac of a U.S. armored cavalry force.

Attempting to smash into American positions just after midnight, the guerrillas were met by the heaviest guns in the U.S. arsenal—175mm cannon raining 200-pound shells on the attackers.

Military headquarters said eight men of the U.S. 11th Armored Cavalry Regiment were killed and 31 wounded in the savage one-hour battle about 40 miles east of Saigon.

It was the only significant ground action reported in the day's communique although there was scattered and occasionally sharp fighting elsewhere. U.S. warplanes kept up their heavy raids on North Vietnam with 130 missions Sunday, including strikes on Hanoi's rail supply lines, the showpiece Tha Nguyen steel plant north of the capital and a surface-to-air missile site.

The American cavalrymen got a brief warning of impending attack when a small night patrol ran into a Communist recoilless rifle team. The U.S. patrol was evidently then surrounded by guerrillas heading for the main cavalry bivouac.

While the guerrillas of the hard-core 274th Viet Cong Regiment smashed at the U.S. line with recoilless rifles, .50 caliber machine guns and infantry assaults, the cavalry commander called for air and artillery support.

As American flareships lit the battlefield, a helicopter gunship strafed the Communists surrounding the isolated patrol. The 175mm cannon began to lay down a fire curtain barely 50 yards from the main American camp.

Within an hour the Viet Cong battalion pulled back into the darkness. The cavalry unit reported at daylight that 45 bodies were found and more had evidently been carried off in the darkness.

The cavalrymen also took 13 prisoners and picked up 18 weapons.

In the central highlands and in the Mekong Delta, Communist forces continued harassing mortar attacks against U.S. and South Vietnamese units. Near Pleiku, in the highlands, a mortar attack on a 4th Infantry Division post wounded 15 Americans. In the delta mortar attacks were directed at militia outposts, inflicting light casualties.

In the air war, American pilots continued to concentrate on Hanoi's rail connections with Red China.

The Air Force communique noted that Hanoi's main northeast rail line has been heavily pounded on 12 of the past 18 days.

Although the weather was cloudy over much of North Vietnam Sunday, Air Force pilots from Thailand and Navy fliers from three aircraft carriers hit rail, road and river supply lines from north of Hanoi down to the border of South Vietnam.

Although one MIG21 was sighted, it made no effort to interfere with the U.S. raiders.

On the northeast rail line, pilots caught 20 boxcars on a siding at Thanh Quang and said all were damaged or destroyed by bombs and air-to-ground rockets. A warehouse along the tracks was badly shot up.

## Jack Nicklaus Wins U.S. Open

**NEW RECORD** — Jack Nicklaus (left) established a new record Sunday, winning the U. S. Open with a blistering four round total of 275. He was four strokes ahead of Arnold Palmer (right), who finished second. Ben Hogan held the old Open record.

SPRINGFIELD, N.J. (AP) — "I felt like an idiot, standing there with a one-iron in my hand," Jack Nicklaus said. "But I knew what I had to do to win this golf tournament."

The bulky Golden Bear, at age 27 perhaps the best golfer the world has seen, was explaining the final moments of his record-shattering triumph in the United States Open Golf Tournament Sunday.

"I wasn't thinking about records," Nicklaus said over and over. "Records come. They're made to be broken. I just wanted to win this tournament."

He did. And he insists it was entirely incidental—he broke Ben Hogan's 19-year-old Open scoring record of 276 by one stroke with a curling, 23-foot putt on the final hole.

It gave him a final round 65, five under par for the state old Baltusrol Course, and a 72-hole total of 275, adding the Open scoring record to his Masters mork of 271.

But he was more concerned with adding this second Open title—he won his first in 1962 in his first year as a pro—to his collection of three Masters, a PGA and a British Open crown. "I had to make a decision on the 18th tee," Nicklaus said. The 18th is a 542-yard, par 5 hole. "I was four strokes ahead

## Over 100 To Play In Qualifier for Cleveland Opener

CLEVELAND (AP) — More than 100 golfers will play 18 holes at the Aurora Country Club today in a battle for the 18 berths yet to be filled for the \$103,500 Cleveland Open which gets under way Thursday.

A field of 144 will tee off Thursday in the first round of the 72-hole tournament, with the windup coming Sunday.

Bob Shave Jr., from Willoughby, is among the pros required to qualify. He is a pro in Philadelphia and will leave the tour after this week to return to his teaching job there.

On Wednesday 54 pros, each with three amateur partners, will participate in the \$5,000 pro-am, the final preliminary to the Cleveland Open.

## OU Sophomore Is NCAA Champ in 440-Yard Dash

PROVO, Utah (AP) — Ohio University sophomore speedster Emmett Taylor is the newly crowned NCAA 440-yard run champion.

He captured the title Saturday night in the NCAA track meet with a 45.9-second effort that beat second place Steve Carson of Iowa State by a tenth of a second.

Another Ohio sprinter, Orin Richburg of Kent State, was sixth in the 220 finals clocked in 20.8 in the event won by Sam Jose's Tommie Smith.

Sam Bair of Kent finished third to Kansas' Jim Ryun in the mile with a 4:06.7 time.

Ohio University's 440-yard relay team came in fourth with a 40.7, well off the pace of Southern California's world record time of 38.6.

## Marietta College Finishes Fourth

RATZBURG, Germany (AP) — Marietta College of Ohio finished fourth Sunday in international rowing competition for the Gillette Cup.

The Marietta crew finished behind Cornell University, Danish Copenhagen Rowing Club and Britain's Tideaway of London over a 2,000 meter-course.

## 2 Boys Killed By Lightning

YELLOW SPRINGS, Ohio (AP) — Steve Baldwin and Stephen Nehez, both 14 and of near Yellow Springs, were killed Saturday night when struck by a bolt of lightning.

They were playing in a woods with four other youngsters when a storm came up. The victims sought shelter under a tree. Their companions ran to a nearby house.

## New Track Record Set At Speedway

Edsel French circled the one-third mile Pickaway Speedway dirt track in 22.429 seconds Sunday, establishing a new qualifying lap record.

Bobby Jacks of Dayton won the 25 lap figure eight feature race, while Myron Herron of Mechanicsburg was first in the 20-lap oval feature.

Behind Jacks in the figure eight were Stoney Asbury, Dayton; Jim Lanman, Circleville; Bill Wilson, Springfield.

Finishing second in the oval feature was Steve Walker of Laurelville. Jacks was third.

THE trophy dash was won by Herron.

The first heat of the day saw Don Hinton of Jintown winning, followed across the finish line by Roy Knece of Williamsport and John Pyffe of Circleville.

In the afternoon's second heat, Carl Elliot of Chillicothe was the winner, with Ernie Adams finishing second and Bill Wilson of Springfield third.

Steve Walker won the third race, Avery Conley of Dayton was second and Myron Herron of Mechanicsburg was third. The consolation race was won by Stoney Asbury of Dayton. Jim Brandenburg was second and Edsel French third.

## Reds Drop into 2nd Place!

## Los Angeles Dodgers Defeat Cincinnati 5-3

SAN FRANCISCO (AP)—The injury-ridden Cincinnati Reds, dropped into second place Sunday by a 5-3 defeat by the Los Angeles Dodgers, open a two-game series here today with the Giants.

Reds' Manager Dave Bristol expects to go with young right-hander Gary Nolan (5-1) against either Bobby Bolin (3-6) or Juan Marichal (9-5).

Serious injuries had put Reds' regulars Deron Johnson, Tommy Harper, Leo Cardenas and Pete Rose on the sidelines prior to Sunday's loss. Tommy Helms, another starter, was down in San Diego for a week-end duty tour with the Marines.

Bristol's makeshift lineup included a second baseman, Chico Ruiz, at short; a first baseman-third baseman, Tony Perez, at second and a catcher, Don Pavletich, at third.

Compounding the Reds' troubles, Len Boehmer, infielder recalled from the Buffalo farm club for the current crisis, was delayed en route, and had to be pencilled out of the lineup.

Lou Johnson and pitcher Claude Osteen led the Dodgers attack, each driving in two runs.

The Dodgers pounded loser Sammy Ellis and reliever Gerry Arrigo for 13 hits, while Osteen scattered 12 safeties in

posting his ninth victory against six losses.

Osteen's two-run single in the second keyed a three-run rally. Johnson delivered one run with a sacrifice fly in the first, and another with a single in the fourth.

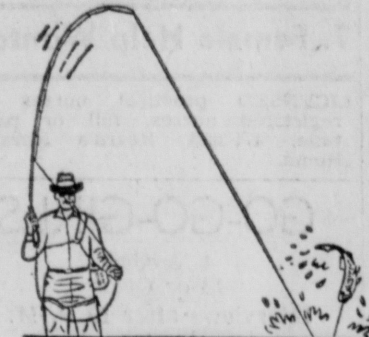

Osteen survived a run-scoring double by Dick Simpson and a bases-empty homer by Tony Perez, his 14th of the year. Ruiz had three hits for the crippled Reds, and scored a run on a sacrifice fly by Lee May.

## Jack Nicklaus Wins U.S. Open

**NEW RECORD** — Jack Nicklaus (left) established a new record Sunday, winning the U. S. Open with a blistering four round total of 275. He was four strokes ahead of Arnold Palmer (right), who finished second. Ben Hogan held the old Open record.

SPRINGFIELD, N.J. (AP) — "I felt like an idiot, standing there with a one-iron in my hand," Jack Nicklaus said. "But I knew what I had to do to win this golf tournament."

The bulky Golden Bear, at age 27 perhaps the best golfer the world has seen, was explaining the final moments of his record-shattering triumph in the United States Open Golf Tournament Sunday.

"I wasn't thinking about records," Nicklaus said over and over. "Records come. They're made to be broken. I just wanted to win this tournament."

He did. And he insists it was entirely accidental—he broke Ben Hogan's 19-year-old Open scoring record of 276 by one stroke with a curling, 23-foot putt on the final hole.

It gave him a final round 65, five under par for the stately old Baltusrol Course, and a 72-hole total of 275, adding the Open scoring record to his Masters mark of 271.

But he was more concerned with adding this second Open title—he won his first in 1962 in his first year as a pro—to his collection of three Masters, a PGA and a British Open crown. "I had to make a decision on the 18th tee," Nicklaus said. The 18th is a 542-yard, par 5 hole. "I was four strokes ahead

and knew I had to beat (Arnold) Palmer to win it.

"Two things were going through my mind. One was what Arnie said last year, that he was thinking about breaking Hogan's record when he had that blow-up in San Francisco. 'The other was that Dick Mayer took a seven on this same hole and lost the Open in 1954.

"Those were the things I was thinking about. I knew the only way Arnie could catch me was for him to get a three and me a seven. So I was shooting for a six or better.

"So I took out a one iron—I felt like an idiot doing it—and aimed it down the right side of the fairway. I was in the rough, on something that looked like a cable. So I got a drop and hit an eight iron back to the fairway."

He reached the green in three "and that's when I knew I had the tournament won."

For all intents and purposes, however, he had it won much earlier, when he reeled off a string of three straight birdies on the third through fifth holes. That gave him a lead he never relinquished.

Palmer, who was tied with Nicklaus and Casper for second going into the final round, finished with a 69 for second place at 279. Playing in the same two some with Nicklaus, he didn't get a birdie until the 17th, but added another at the 18th.

Casper, the defending champion, was bothered by driving problems and settled for fourth with a 72 for 282, one stroke back of Don January, who had a final round 70.

Marty Fleckman, the 23-year-old amateur from Port Arthur, Tex., who led the third round, blew sky high with an 80 for 289, putting him far, far back in the pack. He started with three bogeys, and also bogeyed six of seven holes on the back nine.

Hogan, 55, seeking his fifth Open title, had a final 72 for 292.

# Wilson Pitches 2-0 No-Hitter

By DICK COUCH  
Associated Press Sports Writer  
Don Wilson won't mind writing up another breakfast. If it means more champagne before dinner.

Wilson, a 22-year-old Houston rookie, pitched an overpowering, 2-0 no-hitter — first in the National League since 1965 — against the usually potent Atlanta Braves Sunday.

The 6-foot-3 right-hander walked three Braves, but struck out 15 — including five of the last six he faced — in hurling the first no-hitter in the Astrodome. And he did it all on an empty stomach.

"I didn't change one thing today," he said between sips of

the bubbly in the chaotic Astros' clubhouse. "Oh, yes, there was one thing. My wife didn't cook breakfast for me. She wasn't feeling good."

Would he skip breakfast before his next start?

"I'll try it one more time and see what happens."

Elsewhere in the NL, St. Louis trimmed San Francisco 4-1 to move past Cincinnati into first place while Los Angeles cuffed the Reds 5-3, Pittsburgh beat Philadelphia 5-3 and the Chicago Cubs split a doubleheader with the New York Mets, winning 4-3 after losing by the same score in 10 innings.

The American League-leading Chicago White Sox swept a pair

from the New York Yankees 7-3 and 4-0, Washington edged Boston 3-2 in 10 innings, California topped Baltimore 5-3, Kansas City whipped Detroit 8-4 and Minnesota downed Cleveland 4-2.

Wilson, who got a saving as-

sist from third baseman Bob Aspromonte in the sixth inning, walked Denis Menke leading off the eighth, then struck out pinch hitters Rico Carty, Charles Lau and Cleto Boyer.

In the ninth, Felipe Alou fouled out to Aspromonte, Tito Francona fanned — and slugging Hank Aaron stood between Wilson and the champagne.

"I consider him one of the best clutchers in the game," Wilson said later.

"I checked the scoreboard to see who they had coming up. I didn't want to face Aaron, but after I walked Menke in the eighth, I knew I'd have to."

Aaron ran the count to 3-2, fouled off the next pitch and then went down swinging.

"He just threw it right past me," Aaron said. "This kid threw as hard as anybody we've faced all year."

"He's the kind of guy that makes me want to retire from the game."

The Astros clipped Phil Niekro for their two runs in the fourth on Sonny Jackson's single, Jim Wynn's double, a single by Rusty Staub and an infield out.

Wilson, who came into the game with a 3-3 record, retired the first 14 batters before walking Menke in the fifth.

With two out in the sixth, Aspromonte made a diving stop of Alou's smash to his left, recovered and threw out the runner while still on his knees.

"Aspro made a great throw," Wilson said. "He actually saved the game."

The no-hitter was the first in the NL since Sandy Koufax beat the Cubs with a perfect game on Sept. 9, 1965. Baltimore's Steve Barber and Stu Miller combined for a no-hitter against Detroit on April 30, but the Tigers beat the Orioles 2-1.

Bo Belinsky, now with the Astros, was the last rookie to hurl a no-hitter, accomplishing the feat for the Los Angeles Angels against Baltimore in 1962.

The former Houston pitchers — Don Nottebart and Ken Johnson — pitched no-hitters for the Astros on the road, Nottebart beat the Phillies 4-1 in 1963 but Johnson was beaten by Cincinnati 1-0 the next year.

Harvey Haddix was the last pitcher to stymie the Braves, pitching 12 perfect innings against them in 1959 before losing 1-0 on Joe Adcock's 13th inning double.

Dick Hughes stopped San Francisco on four hits and Orlando Cepeda cracked a two-run homer against his former mates as the Cardinals climbed into first place by six percentage points.

Left-hander Claude Osteen weathered Cincinnati 12 hits and stroked a two-run single, helping the Dodgers knock the Reds out of the top spot for the first time since April 27.

Matty Alou collected four hits for the second day in a row, leading the Pirates past Philadelphia. Winning pitcher Tommie Sisk drilled a two-run single in a four-run first inning burst that offset the Phillies' late surge.

Tom Reynolds' leadoff homer in the 10th inning lifted the Mets past Chicago in the opener but the Cubs snapped a 3-3 deadlock in the eighth inning of the nightcap on Lee Thomas' sacrifice fly, following singles by Glenn Beckert and Billy Williams.

## Cleveland Indians Lose 4-2 to Minnesota Twins

CLEVELAND (AP)— Larry Brown, the Cleveland Indians' shortstop, is convinced that baseball is a game of inches following Sunday's loss to the Minnesota Twins.

If his drive in the eighth inning with the bases loaded had been a few inches higher it would have had a grand-slam home run and the Indians would have had a victory. But left-fielder Sandy Valdespino, who had just entered the game as a defensive replacement, made a leaping over-the-fence catch to end the Indians' threat and the Twins went on to win 4-2.

"I never in all my life hit a ball harder," Brown said after the game, "and when I saw Valdespino back at the fence and jumping I was surprised. . . then I got kind of sick."

Valdespino called it the best catch of his career "because the bases were loaded and the winning run was on base."

"I thought it was going over the fence," he continued. "The wind must have held it up. No wind and it's a home run."

All runs in the game were scored in the eighth inning.

The Twins took a 1-0 lead when Harmon Killebrew drew a bases-loaded walk from starter Sam McDowell. Steve Bailey replaced McDowell and the first batter he faced was Tony Oliva, batting for Bob Allison.

Oliva, released shortly before the game from Shaker Medical Center where he had spent two days after he ran into the fence chasing a line drive in Friday night's game, doubled down the right field line to drive in three runs.

The Indians scored two runs in the bottom of the eighth on singles by Joe Azcue and Tony Horton, but then came Valdespino's catch to rob Brown.

Neither McDowell nor Minnesota starter Jim Kaat permitted a runner to reach third until the eighth. McDowell struck out 11, but his wildness contributed to the Twins eighth-inning rally. He walked three in the inning.

The Indians play a two-night doubleheader with the Kansas City Athletics here tonight with Steve Hargan and Sonny Siebert scheduled to start for the Tribe. They will be opposed by Lew Krausse and Chuck Dobson.

## Portsmouth Man Wins Atomic Feature Race

CHILLICOTHE, O. — Dean Knittel of Portsmouth ended a long victory drought Saturday night at Atomic Speedway, outlasting Don Adams of Logan in the trouble-marred 25-lap feature. Knittel nipped Buzz Peters of Chillicothe at the finish line in the first semi for the only double victory of the night.

It was Knittel's first Atomic feature win since Sept. 3 and it came after a second place finish in the Atomic 100 and an earlier third place performance.

Jim Meeker of Chillicothe, was thewinne r of the fast heat race and the fastest qualifier.

The red or caution flags were out seven times during the feature, but the only injury was in the consi finale when Junior Smalley of Frankfort lost control after climbing the wheel of another car and rolled off the backstretch. He was taken to the hospital for a checkup.

Schwartz took the consi, with Chet Hackworth of Otway and Gib Lawson of Portsmouth in front all of the way in the first two heats and Dyke in the second semi.

# Wilson Pitches 2-0 No-Hitter

By DICK COUCH  
Associated Press Sports Writer  
Don Wilson won't mind passing up another breakfast. If it means more champagne before dinner.

Wilson, a 22-year-old Houston rookie, pitched an overpowering, 2-0 no-hitter — first in the National League since 1965 — against the usually potent Atlanta Braves Sunday.

The 6-foot-3 right-hander walked three Braves, but struck out 15 — including five of the last six he faced — in hurling the first no-hitter in the Astrodome. And he did it all on an empty stomach.

"I didn't change one thing today," he said between sips of

the bubbly in the chaotic Astros' clubhouse. "Oh, yes, there was one thing. My wife didn't cook breakfast for me. She wasn't feeling good."

Would he skip breakfast before his next start?

"I'll try it one more time and see what happens."

Elsewhere in the NL, St. Louis trimmed San Francisco 4-1 to move past Cincinnati into first place while Los Angeles cuffed the Reds 5-3, Pittsburgh beat Philadelphia 5-3 and the Chicago Cubs split a doubleheader with the New York Mets, winning 4-3 after losing by the same score in 10 innings.

The American League-leading Chicago White Sox swept a pair

of the New York Yankees 7-3 and 4-0, Washington edged Boston 3-2 in 10 innings, California topped Baltimore 5-3, Kansas City whipped Detroit 8-4 and Minnesota downed Cleveland 4-2.

Wilson, who got a saving as-

sist from third baseman Bob Aspromonte in the sixth inning, walked Denis Menke leading off the eighth, then struck out pinch hitters Rico Carty, Charles Lau and Cleto Boyer.

In the ninth, Felipe Alou fouled out to Aspromonte, Tito Francona fanned — and slugger Hank Aaron stood between Wilson and the champagne.

"I consider him one of the best clutchers in the game," Wilson said later.

"I checked the scoreboard to see who they had coming up. I didn't want to face Aaron, but after I walked Menke in the eighth, I knew I'd have to."

Aaron ran the count to 3-2, fouled off the next pitch and then went down swinging.

"He just threw it right past me," Aaron said. "This kid threw as hard as anybody we've faced all year."

"He's the kind of guy that makes me want to retire from the game."

The Astros clipped Phil Niekro for their two runs in the fourth on Sonny Jackson's single, Jim Wynn's double, a single by Rusty Staub and an infield out.

Wilson, who came into the game with a 3-3 record, retired the first 14 batters before walking Menke in the fifth.

With two out in the sixth, Aspromonte made a diving stop of Alou's smash to his left, recovered and threw out the runner while still on his knees.

"Aspro made a great throw," Wilson said. "He actually saved the game."

The no-hitter was the first in the NL since Sandy Koufax beat the Cubs with a perfect game on Sept. 9, 1965. Baltimore's Steve Barber and Stu Miller combined for a no-hitter against Detroit on April 30, but the Tigers beat the Orioles 2-1.

Bo Belinsky, now with the Astros, was the last rookie to hurl a no-hitter, accomplishing the feat for the Los Angeles Angels against Baltimore in 1962.

The former Houston pitcher — Don Nottebart and Ken Johnson — pitched no-hitters for the Astros on the road, Nottebart beat the Phillies 4-1 in 1963 but Johnson was beaten by Cincinnati 1-0 the next year.

Harvey Haddix was the last pitcher to stymie the Braves, pitching 12 perfect innings against them in 1959 before losing 1-0 on Joe Adcock's 13th-inning double.

Dick Hughes stopped San Francisco on four hits and Orlando Cepeda cracked a two-run homer against his former mates as the Cardinals climbed into first place by six percentage points.

Left-hander Claude Osteen weathered Cincinnati 12 hits and stroked a two-run single, helping the Dodgers knock the Reds out of the top spot for the first time since April 27.

Matty Alou collected four hits for the second day in a row, leading the Pirates past Philadelphia. Winning pitcher Tommie Sisk drilled a two-run single in a four-run first-inning burst that offset the Phillies' late surge.

Tom Reynolds' leadoff homer in the 10th inning lifted the Mets past Chicago in the opener but the Cubs snapped a 3-3 deadlock in the eighth inning of the nightcap on Lee Thomas' sacrifice fly, following singles by Glenn Beckert and Billy Williams.

## Cleveland Indians Lose 4-2 to Minnesota Twins

CLEVELAND (AP)— Larry Brown, the Cleveland Indians' shortstop, is convinced that baseball is a game of inches following Sunday's loss to the Minnesota Twins.

If his drive in the eighth inning with the bases loaded had been a few inches higher it would have had a grand slam home run and the Indians would have had a victory. But left-fielder Sandy Valdespino, who had just entered the game as a defensive replacement, made a leaping over-the-fence catch to end the Indians' threat and the Twins went on to win 4-2.

"I never in all my life hit a ball harder," Brown said after the game, "and when I saw Valdespino back at the fence and jumping I was surprised. I then I got kind of sick."

Valdespino called it the best catch of his career "because the bases were loaded and the winning run was on base."

"I thought it was going over the fence," he continued. "The wind must have held it up. No wind and it's a home run. All runs in the game were scored in the eighth inning."

The Twins took a 1-0 lead when Harmon Killebrew drew a bases-loaded walk from starter Sam McDowell. Steve Bailey replaced McDowell and the first batter he faced was Tony Oliva, batting for Bob Allison.

Oliva, released shortly before the game from Shaker Medical Center where he had spent two days after he ran into the fence chasing a line drive in Friday night's game, doubled down the right field line to drive in three runs.

The Indians scored two runs in the bottom of the eighth on singles by Joe Azcue and Tony Horton, but then came Valdespino's catch to rob Brown.

Neither McDowell nor Minnesota starter Jim Kaat permitted a runner to reach third until the eighth. McDowell struck out 11, but his wildness contributed to the Twins eighth-inning rally. He walked three in the inning.

The Indians play a two-night doubleheader with the Kansas City Athletics here tonight with Steve Hargan and Sonny Siebert scheduled to start for the Tribe. They will be opposed by Lew Krausse and Chuck Dobson.

## Portsmouth Man Wins Atomic Feature Race

CHILLICOTHE, O. — Dean Knittel of Portsmouth ended a long victory drought Saturday night at Atomic Speedway, outlasting Don Adams of Logan in the trouble-marred 25-lap feature. Knittel nipped Buzz Peters of Chillicothe at the finish line in the first semi for the only double victory of the night.

It was Knittel's first Atomic feature win since Sept. 3 and it came after a second place finish in the Atomic 100 and an earlier third place performance.

Jim Meeker of Chillicothe, was the winner of the fast heat race and the fastest qualifier.

The red and caution flags were out seven times during the feature, but the only injury was in the consi finale when Junior Smalley of Frankfort lost control after climbing the wheel of another car and rolled off the backstretch. He was taken to the hospital for a checkup.

Schwartz took the consi, with Chet Hackworth of Otway and Gib Lawson of Portsmouth in front all of the way in the first two heats and Dyke in the second semi.

ANCIENT GRAVESITE — Martha Potter of the Ohio State Museum delicately moves aside the dirt in an effort to unearth bones that were discovered Monday by a construction crew behind the DuPont Plant on Route 23. The bones of four and possibly more individuals believed to be 3,000 to 4,000 years old were uncovered. They belong to the Glacial Kame people who buried their dead in gravel deposits, the museum authority claims.

Armyworms Invading Local Area Crop Fields

Armyworms are invading Pickaway County crop fields, George Hamrick, county extension agent, reported today.

Hamrick said this pesky critter has been observed in several wheat fields and has started migrating to nearby corn fields, soybeans and meadows.

"Farmers should watch fields closely every day for damage by the armyworm," Hamrick warned. He noted that he had already received about seven calls from area farmers who discovered the insects.

There has been some evidence of the worms cutting off wheat heads, he said, however this type damage may be near an end with the ripening of the wheat . . . the worms will migrate to other greener crops.

THIS particular insect can be controlled with applications

EXAMINING CROPS — George Hamrick, county extension agent, is seen here examining a corn field bordering a wheat crop following a call from an area farmer who suspected an invasion by armyworms. Hamrick confirmed the farmers suspicions and issued a warning to all farmers to be on the lookout for the menacing insects.

Sleeping Like Sardines?

Eight out of ten couples still try to sleep on a standard double bed mattress. Yet, for most people, this size is as old fashioned as high button shoes—it's just too small to give them the room they need for proper rest.

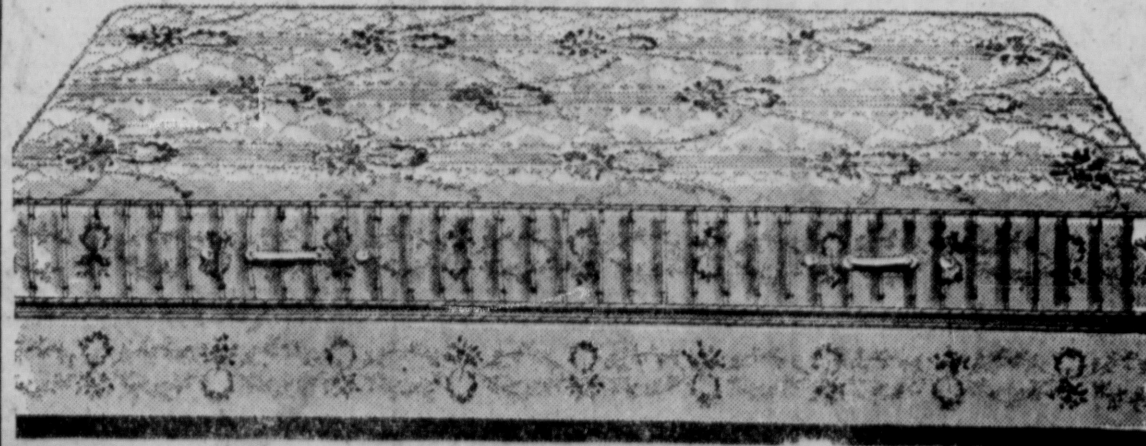

Super Size Beautyrest is the answer. The unique construction of this mattress assures two people of single-bed comfort in a double bed . . . because the springs are separate, work independently, won't sag. Even the heaviest husband can't disturb his wife's sleep.

Let the sardines sleep like sardines. But why don't you visit our bedding department and look at a Super Size Beautyrest. Take your choice of firm or extra firm . . . tufted or quilted . . . and get the size that fits your needs.

Armyworms Invading Local Area Crop Fields

Armyworms are invading Pickaway County crop fields, George Hamrick, county extension agent, reported today.

Hamrick said this pesky critter has been observed in several wheat fields and has started migrating to nearby corn fields, soybeans and meadows.

"Farmers should watch fields closely every day for damage by the armyworm," Hamrick warned. He noted that he had already received about seven calls from area farmers who discovered the insects.

There has been some evidence of the worms cutting off wheat heads, he said, however this type damage may be near an end with the ripening of the wheat . . . the worms will migrate to other greener crops.
